The 21st Annual HIV Conference of the Florida/Caribbean AIDS Education and Training Center (F/C AETC) will be taking place from October 26-27, 2012 at the Buena Vista Palace Hotel and Spa in Lake Buena Vista, FL.

The conference is designed to increase the knowledge and skills of HIV health care providers. Three distinct tracks will allow participants to customize their conference experience to meet their professional needs:

- Advanced Topics for HIV Clinicians
- Fundamentals of HIV for Providers and Staff
- Women, Adolescents, and Children

This year, in a continual dedication to provide dynamic and innovative learning opportunities, the F/C AETC has collaborated with the Florida Consortium for HIV/AIDS Research (FCHAR) to incorporate scientific and behavioral research into a portion of the Advanced Topics for HIV Clinicians track.
