

CDC Viral Hepatitis Funding by State

Source: CDC State by State Budgets 2016

Note: Amounts include funding for Viral Hepatitis Prevention Coordinators and statewide prevention and surveillance efforts, and funding for select jurisdictions for enhanced surveillance, screening and linkage to care programs, prevention programs among non-urban persons who inject drugs, community-based programs to test and cure HCV and test and treat HBV, and HBV perinatal transmission prevention programs. They do not include programs that are national in scope.
