To achieve the goals and objectives highlighted in the Draft EHE Plan for Florida, increased public/private collaborative efforts at the state and local levels are still needed with the following entities:

- Community-based organizations
- Community advocates
- County Health Departments
- Emergency Departments
- County jails
- Faith-based and business leaders
- Rape crisis centers
- Federally Qualified Health Centers
- Health care providers (Bilingual and multilingual)
- Retail pharmacies and clinics mobile applications
- Ryan White HIV/AIDS Program partners
