December 12, 2010

Dear Friends and Colleagues:

It is my pleasure to welcome you to Washington, DC for the 2010 HIV Prevention Leadership Summit (HPLS)! This year marks yet another important milestone in the fight against HIV/AIDS with the White House’s recently released National HIV/AIDS Strategy, which focuses on HIV prevention, access to care, and the reduction of health disparities. We also received word that the 2012 International AIDS Society conference will be back in the United States after 20 years. DC looks forward to being the host city.

The District of Columbia bears the highest documented burden of HIV/AIDS in the United States with more than three percent of residents diagnosed and living with HIV/AIDS. With this large epidemic, we have embarked on large-scale efforts to fight it with ramping up routine HIV testing, developing new demonstrations such as “Test and Treat”, launching expedited “Red Carpet” linkages to care, mainstreaming male and female condoms, among other initiatives. That makes our city a very fitting venue in which to host HIV prevention practitioners from across the country as you learn about the latest HIV prevention research and strategies.

Thank you for taking the time to attend the HIV Prevention Leadership Summit and for your continuing efforts to prevent HIV transmission.

Sincerely,

Pierre N. D. Vigilance, MD, MPH
Director

825 North Capitol Street, N.E., 9th Floor, Washington, D.C. 20002 • Phone: (202) 442-5955, Fax: (202) 442-4795
Welcome

We hope you enjoy HPLS and the special events we have organized for you. Please see the conference program or visit our booth in the exhibit hall for exact times and locations.

Welcome Reception

Service of Remembrance

PWA Lounge
Sunday-Wednesday, December 12-15

Please stop by the Host Committee booth in the Exhibit Hall and pick up a copy of our guide to places to eat and have fun in D.C.

Enjoy yourselves!

About the Conference Co-Sponsors

Academy for Educational Development (AED)
AED was founded in 1961 as a global independent, nonprofit organization committed to solving critical social problems in the United States and abroad. AED’s international and culturally diverse staff works globally to create enduring solutions to critical problems in health, education, and social and economic development by offering the best thinking, technologies, and multidisciplinary approaches to human development.

Today, working throughout the United States and in over 150 countries, AED draws on fifty years of experience in health, education, youth development, and the environment. AED has an established reputation as one of the leading institutions combining prevention program development with behavioral and social science analysis and care and treatment approaches to affect changes in health-related behaviors.

The AED Center on AIDS & Community Health (COACH) is committed to helping communities develop and apply creative and practical science-based program and policy strategies to resolve complex public health issues, with a major focus on domestic and international HIV/AIDS and sexually transmitted diseases, tuberculosis, and viral hepatitis.

The AIDS Institute
The AIDS Institute is a national nonprofit and nonpartisan public policy organization with offices in Washington, DC and Tampa, FL. Its mission is to promote action for social change through public policy research, advocacy, and education and began as a grass roots community mobilization effort in the mid 1980s. The AIDS Institute remains focused on HIV/AIDS while incorporating efforts in related areas including hepatitis, malaria, tuberculosis, and systems issues such as access to services, poverty, and human rights.

Public policy research is the foundation upon which the agency’s advocacy and education efforts are based. Analysis and interpretation of information about the AIDS pandemic, as well as its social consequences, are critical to implementing advocacy and education programs that create social change, positively impacting HIV prevention as well as the care and treatment of people living with HIV/AIDS. The AIDS Institute is also engaged in leadership roles in educating elected officials and government programs on state, federal and international levels.

Through a variety of community education programs The AIDS Institute provides consumers, providers, community members, organizations and professional associations with information, referral, training and technical assistance and capacity building. The AIDS Institute understands the importance of reaching populations that are sometimes not connected to healthcare advocacy and has developed targeted outreach programs.

Centers for Disease Control and Prevention
The mission of the Centers for Disease Control and Prevention (CDC) is to promote health and quality of life by preventing and controlling disease, injury, and disability. As the nation’s prevention agency, CDC accomplishes its mission by working with partners throughout the world to monitor health; detect and investigate health problems; conduct research to enhance prevention; develop and advocate sound public health policies; implement prevention strategies; promote healthy behaviors; foster safe and healthy environments; and provide leadership and training. CDC’s HIV mission is to prevent HIV infection and reduce the incidence of HIV-related illness and death, in collaboration with community, state, national and international partners.

National Alliance of State and Territorial AIDS Directors
NASTAD represents state health department HIV/AIDS program directors responsible for administering HIV/AIDS and viral hepatitis health care, prevention, education, and supportive services programs. NASTAD strengthens state and territory-based leadership, expertise, and advocacy and brings them to bear in reducing the incidence of HIV/AIDS and viral hepatitis. NASTAD’s vision is a world free of HIV/AIDS and viral hepatitis.

NASTAD builds the capacity of HIV/AIDS and viral hepatitis programs in U.S. state and territorial health departments through the provision of customized, peer-based technical assistance (TA). NASTAD’s major areas of focus include government relations and public policy; care and treatment; prevention and surveillance; global technical assistance; and viral hepatitis health disparities.

National Association of People with AIDS
The National Association of People with AIDS (NAPWA) represents over a million people living with HIV in the U.S. NAPWA encourages early diagnosis and HIV testing through National HIV Testing Day, and builds capacity in communities through culturally appropriate materials and leadership development. NAPWA provides
education, service and treatment information to HIV-positive individuals, and supports the grassroots efforts of the HIV community across the country through their annual AIDSWatch program and regular Positive Voice updates.

National Minority AIDS Council
The National Minority AIDS Council was formed in 1987 to develop leadership in communities of color to address the challenges of HIV infection and AIDS. Our members are community-based organizations that deal with AIDS on the frontlines, in hospitals and clinics, shelters and schools, storefronts and streets. Thousands of men and women of color rely on such organizations for outreach, care, education, housing and support services.

NMAC’s goals are to lend visibility, leadership, comprehensive technical assistance and a powerful national voice to these frontline AIDS workers.

Urban Coalition for HIV/AIDS Prevention Services
The Urban Coalition for HIV/AIDS Prevention Services (UCHAPS) is a partnership of community members and health department representatives from eight urban jurisdictions in the U.S. funded by the Centers for Disease Control and Prevention (CDC) to conduct HIV prevention services. UCHAPS member jurisdictions include Chicago, Houston, Los Angeles County, Miami/Dade County, New York City, Philadelphia, the City and County of San Francisco, and Washington, DC. Collectively these jurisdictions represent 38 percent of the nation’s AIDS cases, are among the epicenters of the urban HIV epidemic, and are often at the forefront of piloting new prevention intervention strategies.

UCHAPS jurisdictions are dedicated to reducing mortality and morbidity, reducing disparities in health outcomes and reducing the incidence of new HIV infections. UCHAPS continually explores ways to improve the delivery of services and uses a peer technical assistance model to exchange expertise, strategies and solutions to common challenges. UCHAPS is committed to invigorating the partnership between CDC and heavily impacted urban areas and increasing awareness of the HIV prevention needs of urban centers among federal, state, and local policy makers.
tab 2 greater than AD
Affinity Sessions
Affinity Sessions are scheduled on Monday from 5:30pm – 6:30 p.m. and Tuesday from 4:30 – 5:30 p.m. in various breakout rooms. If you would like to schedule an affinity session, visit the Conference Operations Office, located in the Balcony A room, on the Mezzanine Level to receive an assignment.

Badges
Your conference badge is your admission to plenary sessions, educational sessions, the exhibit hall and social functions. You will not be allowed to enter conference functions without your badge. There is a $5.00 fee to replace lost badges.

Computer Lab
Visit the computer lab in the Exhibit Hall (Exhibit Hall A, Exhibition Level) to learn how to turn your computer into a library of information at your fingertips. You may access your email, send messages to colleagues or browse the Internet for the latest available funding sources and updates on HIV/AIDS legislative activities.

Conference Operations Office
The Conference Operations Office is located in the Balcony A room, on the Fifth Floor. Feel free to stop by with conference-related issues and questions.

The office will be open during the following hours:
Sunday: 4:00 p.m. – 7:00 p.m.
Monday: 8:00 a.m. – 5:00 p.m.
Tuesday: 8:00 a.m. – 5:00 p.m.
Wednesday: 9:00 a.m. – 12:00 noon

Exhibits
Visit the Exhibit Hall, located in Exhibit Hall A on the Exhibition Level, to speak to representatives of federal and state agencies, national organizations, AIDS service organizations, people living with HIV/AIDS, coalitions, religious organizations, corporations, national and community-based organizations, community retailers and pharmaceutical companies interested in the community-based response to HIV/AIDS. The exhibit hall grand opening is set for Sunday, at 4:00 p.m. Refer to the conference agenda tab for Exhibit Hall hours. The Exhibit Hall will officially close at 5:00 p.m. on Tuesday.

Job and Message Board
There will be bulletin boards at conference registration, located at the Convention Registration Desk on the Lobby Level of the hotel, where you may post or peruse job openings, as well as leave messages for conference attendees.

Medical Emergencies/Pharmacy
The closest hospital to the Marriott Wardman Park is:

George Washington University Hospital
900 23rd Street NW
Washington, DC 20037
P: 202-715-4000
www.gwhospital.com

The closest pharmacy to the hotel is:

CVS Pharmacy
2616 Connecticut Ave., NW
Washington, DC 20008
P: 202-332-1446

Personal Property
Please store your valuables, especially cash and jewelry, in a hotel safe deposit box. If there is a mini-safe in your room, please use it. The Conference is not responsible for items lost or stolen items from your hotel room or public spaces.

Program Changes
Changes in this program may have occurred since this program book was printed. Some sessions may have been cancelled or assigned a different presenter. We apologize for any inconvenience. Daily program changes, if any, will be listed on the Message Board.

PWA Lounge
The Persons with HIV/AIDS (PWA) Lounge will provide people living with HIV/AIDS comfortable seating and a relaxing atmosphere. The location of the PWA lounge will be announced on-site.

PWA lounge hours are:
Sunday: 3:00 p.m. – 7:00 p.m.
Monday: 8:00 a.m. – 5:00 p.m.
Tuesday: 8:00 a.m. – 5:00 p.m.
Wednesday: 8:00 a.m. – 12:00 noon

Registration Hours
Conference registration is located at the Convention Registration Desk on the Lobby Level.

Registration hours are:
Sunday: 4:00 p.m. – 7:00 p.m.
Monday: 8:00 a.m. – 5:00 p.m.
Tuesday: 8:00 a.m. – 5:00 p.m.

Smoking Policy
HPLS is a non-smoking conference. For the health and comfort of conference attendees, we ask that you observe a no-smoking policy in conference areas, and restrict smoking to the outdoors.
lighting the way to a better tomorrow
and the proud sponsor of the
2010 HIV Prevention Leadership Summit

Promoting Action for Social Change Through Public Policy Research, Advocacy and Education

www.theaidsinstitute.org
Dear Colleagues:

The HIV Prevention Leadership Summit (HPLS) Executive Committee would like to welcome you to Washington, D.C. for the 2010 Summit!

This year’s Executive Committee members are:

- Academy for Educational Development (AED)
- The AIDS Institute (TAI)
- Centers for Disease Control and Prevention (CDC)
- National Alliance of State and Territorial AIDS Directors (NASTAD)
- National Association of People with AIDS (NAPWA)
- National Minority AIDS Council (NMAC)
- Urban Coalition for HIV/AIDS Prevention Services (UCHAPS)

We designed this year’s Summit specifically for grantees funded by the Centers for Disease Control and Prevention, Division of HIV/AIDS Prevention. You represent state and local health departments, community planning groups (CPG), capacity building assistance providers, community-based organizations, and other interested HIV prevention partners. We know that you will find the workshops, roundtables and communities of practice sessions, poster sessions, and plenary sessions useful to your work as they will be informative and inspiring.

During the next three days, it is our hope that as a participant you will take advantage of the opportunity to network and learn and share with colleagues. You represent the HIV prevention leadership in this country and we are proud of the diversity you bring to this important Summit.

Attending this year are AIDS directors, program managers, executive directors, HIV prevention program staff, CPG members, CDC staff, federal partners and other HIV prevention partners. We wanted this year’s Summit to be a forum to disseminate and exchange information and to enhance program planning and management with innovative strategies to implement HIV prevention programs. You will also receive important information, skills building, and opportunities to share lessons learned.

We are pleased that you’ve chosen to join us at this year’s Summit and look forward to your participation. Thank you for coming and for sharing your expertise and excitement with us.

Have a great conference.

Sincerely,

Michael Ruppal, Executive Director

CONFERENCE AGENDA

Sunday, December 11
4:00 p.m. – 7:00 p.m.: Registration and Exhibit Hall open

Monday, December 12
8:00 a.m. – 5:00 p.m.: Registration open
9:30 a.m. – 11:30 a.m.: Opening Plenary Session: “Taking HIV Prevention to the Next Level”
11:30 a.m. – 5:30 p.m.: Exhibit Hall open
11:30 a.m. – 12:30 p.m.: Lunch in the Exhibit Hall
12:30 p.m. – 1:00 p.m.: Poster Session (dedicated)
1:00 p.m. – 3:00 p.m.: Session 1 Workshops, Roundtables and Communities of Practice
3:15 p.m. – 5:15 p.m.: Session 2 Workshops, Roundtables and Communities of Practice
5:30 p.m. – 6:30 p.m.: Affinity Sessions

Tuesday, December 13
8:00 a.m. – 5:00 p.m.: Registration open
9:30 a.m. – 11:30 a.m.: Session 3 Workshops, Roundtables and Communities of Practice
9:30 a.m. – 5:30 p.m.: Exhibit Hall open
11:45 a.m. – 1:15 p.m.: Plenary Luncheon: “Overview of the National HIV/AIDS Strategy”
1:30 p.m. – 2:00 p.m.: Poster Session
2:15 p.m. – 4:15 p.m.: Session 4 Workshops, Roundtables and Communities of Practice
4:30 p.m. – 5:30 p.m.: Affinity Sessions
6:00 p.m. – 7:30 p.m.: Host Committee Event (TBD)

Wednesday, December 15
8:45 a.m. – 10:45 a.m.: Session 5 Workshops, Roundtables and Communities of Practice
11:00 a.m. – 1:00 p.m.: Session 6 Workshops, Roundtables and Communities of Practice
1:15 p.m. – 2:45 p.m.: Closing Plenary Luncheon: “Implementing the Strategy: Where Do We Go from Here?”
PLENARY SESSIONS

Opening Plenary: Taking HIV Prevention to the Next Level
Monday, December 13
9:30 a.m. – 11:30 a.m.

Location: Marriott Ballroom

During this session, attendees will hear from the director of the Division of HIV/AIDS Prevention at the CDC, Dr. Jonathan Mermin. He will discuss the state of the epidemic and the latest trends and directions for HIV in the U.S. He will also provide an overview of his vision for current expectations and future directions for CDC’s HIV prevention activities in partnership with its grantees.

Representatives from grantee organizations will also discuss their organizational role in moving the country’s HIV prevention efforts forward. They include Isela Gonzalez from San Francisco Department of Health; Kali Lindsey from Harlem United Community AIDS Center; Ann Robbins from Texas Department of State Health; and Vanessa Smith from the South Side Help Center in Chicago, IL. Dr. Pierre Vigilance, Director for the Department of Health for the Government of the District of Columbia, will provide a conference welcome to HPLS attendees.

Plenary Luncheon: Overview of the National HIV/AIDS Strategy
Tuesday, December 14
11:45 a.m. – 1:15 p.m.

Location: Marriott Ballroom

Leaders from the White House, Department of Health and Human Services, and the CDC will provide reflections on the President’s National HIV/AIDS Strategy and how they envision grantees collaborating with CDC to achieve the President’s goal. They will also discuss the specific directions that are being taken by The National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention to achieve the President’s goals.

Closing Plenary Luncheon: Implementing the National HIV/AIDS Strategy – Where Do We Go from Here?
Wednesday, December 15
1:15 p.m. – 2:45 p.m.

Location: Marriott Ballroom

This session will provide an opportunity to reflect upon the role and evolution of HIV prevention community planning, explore the role of community planning in reaching the goals of the President’s National HIV/AIDS Strategy, and discuss the challenges that must be met in order to achieve the intended results of the National Strategy.

SPECIAL EVENTS

Host Committee Event
Sunday, December 12
6:00 p.m. – 7:30 p.m.

Location: Exhibit Hall

The 2010 HPLS Host Committee Event will feature a showcase of local, District performers and artists. Performances will include spoken word, music and role-play. Refreshments will be served.
NASTAD represents state health department HIV/AIDS program directors responsible for administering HIV/AIDS and viral hepatitis health care, prevention, education, and supportive services programs. NASTAD strengthens state and territory-based leadership, expertise, and advocacy and brings them to bear in reducing the incidence of HIV/AIDS and viral hepatitis. NASTAD’s vision is a world free of HIV/AIDS and viral hepatitis.

NASTAD builds the capacity of HIV/AIDS and viral hepatitis programs in U.S. state and territorial health departments through the provision of customized, peer-based technical assistance (TA). NASTAD’s major areas of focus include:

**Government Relations and Public Policy** - NASTAD applies multi-layered communications strategies with federal and state lawmakers to effectively translate HIV and viral hepatitis care, treatment, and prevention program concerns into sound federal policy.

**Care and Treatment** – NASTAD provides assistance to state and territorial HIV/AIDS and viral hepatitis programs on care and treatment issues, including AIDS Drug Assistance Programs (ADAP), and is the primary liaison and advocate for state programs with Health Resources and Services Administration (HRSA).

**Prevention and Surveillance** – NASTAD supports peer-exchange, policy analysis, and networking for effective HIV prevention programs, and is the primary liaison and advocate for state health departments on issues related to implementation of CDC’s HIV prevention cooperative agreements.

**Global Technical Assistance** – NASTAD assembles peer-based TA teams to help increase the capacity of resource-constrained countries, including planning, implementation, and management of HIV prevention and care activities, as part of a unified U.S. response to the HIV/AIDS pandemic.

**Viral Hepatitis** – NASTAD works with state health department HIV/AIDS and viral hepatitis programs to increase their capacity and to integrate HIV/AIDS and viral hepatitis prevention and care services. NASTAD is the primary liaison and advocate for Adult Viral Hepatitis Prevention Coordinators.

**Health Disparities** – One of NASTAD’s strategic priorities is to reduce health disparities in the HIV/AIDS and viral hepatitis epidemics. NASTAD’s commitment to this concern is evident through a variety of program activities and work groups that focus on reducing disparities in African American, Latino, Native American, and Asian and Pacific Islander communities across the nation. Additionally, NASTAD has a specific focus throughout its programs on addressing health disparities among at-risk populations, particularly gay men and bisexual men of all races and people who inject drugs.
Program Format

PROGRAM FORMAT

Workshops are two-hour interactive sessions designed for sharing lessons learned, audience participation and increasing knowledge around a particular aspect of HIV prevention. Workshops may be conducted by an individual or co-presenters.

Roundtables are informal discussions on specific topics among small groups. These sessions are led by a facilitator(s) relevant to one of the four conference tracks.

Communities of practice sessions are something new to the HPLS program. It is essentially convening a group of people who share an interest, a craft, and/or a profession. In the context of HPLS, the community of practice is called together to share members’ common interest in a particular domain or area with the goal of sharing practical knowledge related to their field. For example, capacity building specialists, specific intervention implementers (e.g., POL, SISTA, Safety Counts, etc.), HIV testers and counselors, case managers, program manager (e.g., prevention, care, treatment, etc.), etc. It is through the process of sharing information and experiences with the group that the members learn from each other, and have an opportunity to develop themselves personally and professionally.

Poster presentations are 8’x4’ visual presentations of subject matter in placard-type format. Posters may be accompanied by handouts or other materials. The poster presentation session will provide a forum to present HIV/AIDS research findings, share insights and learn about best practices to advance our work in HIV/AIDS. Take this opportunity to meet with colleagues and learn about their research efforts. This is an excellent opportunity to shape the future of our work.

Affinity Sessions are impromptu meetings designed for a group of individuals with similar interests to meet, discuss, network, and share information. They are one hour in length and address a variety of topics and issues. Affinity sessions will occur on Monday from 5:30 – 6:30 p.m. and Tuesday from 4:30 – 5:30 p.m. If you wish to schedule an affinity session, please go to the Conference Operations Office in Balcony A on the Mezzanine Level. Advertisements for affinity sessions are the responsibility of the facilitator. Affinity session announcements may be listed on the “Affinity Session” bulletin board near conference registration.

Conference Session Levels

Sessions have been designed to meet participants’ needs. The following levels are provided to assist you in determining which sessions you would like to attend:

Introductory: Introductory sessions provide participants with a baseline understanding of the various components of a program, effective intervention, organizational management strategy or integration model.

Intermediate: The target audience of intermediate level sessions will have a basic knowledge and understanding of community planning, programs or organizational management. These sessions emphasize interactive skills-building.

Advanced: Advanced sessions are targeted to participants with a strong understanding of the principles and practices of community planning, HIV prevention programs, prevention and care integration, or organizational management. Learning objectives will include a critical analysis of the subject matter under review.
Track Descriptions

TRACK DESCRIPTIONS

HIV Community Planning Track
This track will focus on the key role of HIV prevention community planning in a new era of HIV prevention and care collaboration and exciting advances in behavioral, biomedical, and structural interventions. Sessions will underscore the knowledge and skills necessary to effectively manage the community planning process and implement the principle objectives of community planning so that local HIV prevention responses closely align with the goals set forward in the National HIV/AIDS Strategy.

Health Description Track
The health department track is specifically designed by and for health department grantees. The workshops and roundtables are facilitated by health department staff from across nation and address issues pertinent to HIV prevention. These sessions are opportunities to network with colleagues from state and local health departments, engage in robust and solution-driven conversations and share lessons learned and best practices on priority issues that currently affect state health departments.

Community Based Organizations Track
The CBO Track offers skill-based sessions to promote effective evidence-based interventions in CBOs, especially sessions to help develop skills to assess program outcomes and to adapt an intervention to special populations and communities. This year’s Track brings together experienced providers serving diverse high-risk populations in “best practice” roundtable discussions, as well as experienced providers from some of CDC’s highest profile community initiatives, including prevention in community care settings and CBO participation in the Expanded Testing Initiative.

There is a special emphasis on peer leadership throughout the CBO Track, training peers for service delivery, for participation on advisory boards, and for leadership roles in the National AIDS Strategy. And, the CBO Track is host to workshops addressing key emerging issues for CBOs, including a status update on the changing HIV testing algorithm and a program planning workshop on balancing biomedical and structural interventions with behavioral interventions.

Capacity Building Assistance Track
The purpose of this track is to address varying organizational and programmatic issues to support the performance of CBA providers. Sessions will engage CBA providers to 1) learn about innovative models, methods, and strategies for the planning, implementation, and evaluation of HIV prevention programs in relation to capacity building; 2) dialogue with CBA consumers and peers about best practices for delivering CBA services; 3) discuss the National HIV/AIDS Strategy and its implications for CDC-funded CBA programs; and 4) obtain information and tools to build their own capacity to strengthen organizational infrastructure and program sustainability.
for twenty-five years, NAPWA has provided programs focused on leadership development and peer-led projects for people living with HIV.

Today, NAPWA programs include Regional Meetings, Capacity Building Activities, National HIV Testing Day, AIDSWatch, the Positive Youth Institute, and a DC-based Consumer Advocacy Project.
SESSION 1: MONDAY, DECEMBER 13 1:00 p.m. – 3:00 p.m.

WORKSHOPS

Capacity Building Assistance (CBA): Community-Based Organization (CBO) Perspectives
Location: Delaware A, Lobby Level

Lessons Learned: Jurisdictions Response to the Epidemic among Gay Men
Location: Delaware B, Lobby Level

Research to Practice: Building the Capacity of Health Departments to Conduct Research and Using the Findings to Implement Services Delivery in Their Jurisdiction
Location: Marshall North, Mezzanine Level

Capacity Building Assistance (CBA): Health Department Perspectives
Location: Marshall South, Mezzanine Level

Adaptation Strategies for Evidence-Based Interventions
Location: Marshall West, Mezzanine Level

Effective Fiscal Management of Your CBA Program
Location: Maryland A, Lobby Level

Using Data for Priority Setting
Location: Maryland C, Lobby Level

Program Evaluation Monitoring System (PEMS)
Location: Virginia A and B, Lobby Level

Working With the Transgender Community
Location: Virginia C, Lobby Level

ROUNDTABLES

CPG Perspectives on Testing, Linkage to Care, Plus Treatment (TLC+)
Location: Room 8216, Lobby Level

Confronting the Crisis: Women of Color and HIV/AIDS
Location: Room 8219, Lobby Level

PS10-1002: HIV Prevention Projects for the Pacific Islands and U.S. Territories: Capacity Building for HIV Prevention Programs
Location: Room 8222, Lobby Level

HIV Prevention with Rural Populations
Location: Room 8224, Lobby Level

CBA for Monitoring and Evaluation Network
Location: Room 8226, Lobby Level

SESSION 2: MONDAY, DECEMBER 13 3:15 p.m. – 5:15 p.m.

WORKSHOPS

Using Data to Drive Decision Making
Location: Delaware A, Lobby Level

HIV Prevention Program Performance Indicators, 2010-2015
Location: Delaware B, Lobby Level

Using HIV Surveillance Data in Applying Public Health Principles to the HIV Epidemic
Location: Marshall East, Mezzanine Level

State-Level Strategies to Build Capacity of Health Departments in Addressing the HIV Epidemic among LGBTQ Youth
Location: Marshall North, Mezzanine Level

Understanding Monitoring and Evaluation Guidelines for EBIs and Public Health Strategies
Location: Marshall South, Mezzanine Level

CPG Integration of Prevention, Care and Treatment
Location: Marshall West, Mezzanine Level

Prevention with People Living with HIV: New Research and Guidance
Location: Maryland A, Lobby Level

Location: Maryland B, Lobby Level

Strengthening Organizations Serving African-American and Latino MSM
Location: Maryland C, Lobby Level

The Role of CBOS in CDC’s Expanded Testing Initiative
Location: Virginia A and B, Lobby Level

Innovative Models for Addressing the Gaps and Needs for Behavioral Interventions
Location: Virginia C, Lobby Level

ROUNDTABLES

Prevention Efforts and Strategies for Capturing Data in the Transgender Population
Location: Room 8216, Lobby Level
CBA for Evidence-based Behavioral Interventions and Public Health Strategies Network  
Location: Room 8224, Lobby Level

Dialogue for CBOs Implementing Focus on Youth + ImPACT  
Location: Room 8219, Lobby Level

Dialogue for CBOs Implementing Popular Opinion Leader, Mpowerment, 3MV, and Healthy Relationships for Men Who Have Sex with Men  
Location: Room 8222, Lobby Level

NASTAD’s Statement of Urgency among Gay and Bisexual Men  
Location: Room 8226, Lobby Level

SESSION 3:  
TUESDAY, DECEMBER 14  
9:30 a.m. – 11:30 a.m.

**WORKSHOPS**

Use of Behavioral and Clinical Surveillance for HIV Prevention Programming  
Location: Delaware A, Lobby Level

Syringe Services Programs: Lessons from the Field  
Location: Delaware B, Lobby Level

Tracking and Understanding the Resource Allocations and Expenditures for HIV Prevention  
Location: Marshall East, Mezzanine Level

Expanded Testing Program: Testing in Emergency Departments  
Location: Marshall North, Mezzanine Level

Prevention with Positives: Promising Practices in Linking Persons to Care  
Location: Marshall South, Mezzanine Level

CRCS in Community Primary Care Settings  
Location: Marshall West, Mezzanine Level

Linkage to Care, Retention and Treatment  
Location: Maryland A, Lobby Level

Location: Maryland B, Lobby Level

Building Capacity to Integrate HIV Prevention, Treatment and Care  
Location: Maryland C, Lobby Level

CBOs, Social Networking/Social Marketing, and HIV Prevention Programs  
Location: Virginia A and B, Lobby Level

CPGs Respond to the National HIV/AIDS Strategy  
Location: Virginia C, Lobby Level

SESSION 4:  
TUESDAY, DECEMBER 14  
2:15 p.m. – 4:15 p.m.

**WORKSHOPS**

Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP)  
Location: Delaware A, Lobby Level

Get Involved with the Act Against AIDS Campaign  
Location: Delaware B, Lobby Level

TLC-Plus in Washington, DC  
Location: Marshall East, Mezzanine Level

Linkages to Care: Lessons from the Field  
Location: Marshall North, Mezzanine Level

HIV Surveillance and the Changing Testing Algorithm  
Location: Marshall South, Mezzanine Level

CBA for Health Departments Network  
Location: Room 8216, Lobby Level

HIV Prevention Programs for Pre-released and Recently Released Inmates  
Location: Room 8219, Lobby Level

Dialogues of Practice  
Dialogue for CBOs Implementing CTRS/RESPECT among Asian, Pacific Islanders and U.S. Territories  
Location: Room 8222, Lobby Level

CBA for Community-Based Organizations Network  
Location: Room 8224, Lobby Level

**ROUNDTABLES**

CBA for Health Departments Network  
Location: Room 8216, Lobby Level

Capacity Building for Health Departments  
Location: Marshall West, Mezzanine Level

Developing and Disseminating Community Mobilization Models  
Location: Maryland C, Lobby Level
CPGs’ Role in Implementing and Expanding Testing Initiatives  
Location: Virginia A and B, Lobby Level

Capacity Building Needs Assessments  
Location: Virginia C, Lobby Level

**ROUND TABLES**

- CBA for Organizational Infrastructure and Program Sustainability (OIPS) Network  
  Location: Room 8216, Lobby Level

- HIV Prevention Needs for African-born Refugee Populations  
  Location: Room 8224, Lobby Level

- CPG Prioritization  
  Location: Room 8222, Lobby Level

**COMMUNITIES OF PRACTICE**

- The Value of Peer-Based Technical Assistance for Community Planning  
  Location: Room 8219, Lobby Level

- Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP)  
  Location: Marshall East, Mezzanine Level

- How to Recruit and Retain the “Right” People for Your CBA Program  
  Location: Marshall South, Mezzanine Level

- Best Practices: Working With Gay Men of Color  
  Location: Marshall West, Mezzanine Level

- CBA to Support HIV Prevention for African-American and Latino Gay, Bisexual, and Other Men Who Have Sex with Men  
  Location: Maryland A, Lobby Level

- Linkage to Care, Retention and Treatment  
  Location: Maryland C, Lobby Level

- HIV Prevention Program Performance Indicators for CBOs  
  Location: Virginia A and B, Lobby Level

- The Keys to a Successful Community Planning Process  
  Location: Virginia C, Lobby Level

**SESSION 6:**

**WEDNESDAY, DECEMBER 15**

11:00 A.M. – 1:00 P.M.

**WORKSHOPS**

- Working with Asian/Pacific Islands and Native American Communities  
  Location: Marshall East, Mezzanine Level

- Planning for Implementation of the National Strategy at the State and Local Levels  
  Location: Marshall West, Mezzanine Level

- How to Design Effective eLearning Training Tutorials for HIV Prevention  
  Location: Maryland A, Lobby Level

- Working With Black Women and Latinas  
  Location: Maryland C, Lobby Level

- Evaluating HIV Prevention Community Planning Models among CPGs  
  Location: Virginia A and B, Lobby Level
Sessions-at-a-Glance

ROUNDTABLES

Choosing Interventions for the Prevention Plan
Location: Room 8216, Lobby Level

COMMUNITIES OF PRACTICE

Dialogue for CBOs Implementing DEBIs for Transgender
Location: Room 8222, Lobby Level

Innovative Testing Approaches
Location: Room 8226, Lobby Level
Strengthening HIV Prevention in Urban America
Workshops

Session 1:
Monday, December 13
1:00 p.m. – 3:00 p.m.

Capacity Building Assistance (CBA): Community-Based Organization (CBO) Perspectives
Facilitator: Phyllis Stoll, Centers for Disease Control and Prevention – CBB (Atlanta, GA)

Presenters:
Lizbeth Rivera, ASPIRA (Newark, NJ)
Francisco Roque, Gay Men’s Health Crisis (New York, NY)
Thea Williams, Minority AIDS Project (Los Angeles, CA)
Adam Tenner, Metro Teen AIDS (Washington, DC)

Location: Delaware A, Lobby Level
Track: CBA
Level: Intermediate

Communication is critical to successful partnerships. In this forum, CBOs will discuss the actual and potential role of CBA in responsively addressing their administrative and programmatic challenges to effectively implement and sustain behavioral, biomedical, and structural interventions and public health strategies. Attention will be given to availability and accessibility of CBA services, and the quality of CBA services delivery.

Lessons Learned: Jurisdictions Response to the Epidemic among Gay Men
Presenters:
Andrew Gans, New Mexico Department of Health (Santa Fe, NM)
Barry Callis, Massachusetts Department of Health (Boston, MA)
Israel Nieves-Rivera, San Francisco Department of Public Health (San Francisco, CA)

Location: Delaware B, Lobby Level
Track: HD
Level: Intermediate

In 2008, the Centers for Disease Control and Prevention (CDC) announced the availability of supplemental funds to Program Announcement 04012: HIV Prevention Projects, to support the development of state and local health department plans to enhance HIV prevention services for Men Who Have Sex with Men (MSM). State and local health departments utilized these funds to assess current activities and risks, and generated new approaches to address the unmet needs of MSM with the development of a statewide MSM strategic plan. This workshop will highlight a range of formative planning, assessments and prevention models that address unmet prevention service needs among gay and bisexual men, and other MSM.

Research to Practice: Building the Capacity of Health Departments to Conduct Research and Using the Findings to Implement Services Delivery in Their Jurisdiction
Presenters:
Mario Perez, Director Office of AIDS Program and Planning (Los Angeles, CA)
Evelyn Ullah, Florida Department of Health (Miami, FL)

Location: Marshall North, Mezzanine Level
Track: CBA
Level: Intermediate

Communication is critical to successful partnerships. In this forum, health departments will discuss the actual and potential role of CBA in responsively addressing their administrative and programmatic challenges to effectively implement and sustain behavioral, biomedical, and structural interventions and public health strategies. Attention will be given to availability and accessibility of CBA services, and the quality of CBA services delivery.

Capacity Building Assistance (CBA): Health Department Perspectives
Facilitator: Alberto Santana, Centers for Disease Control and Prevention – CBB (Atlanta, GA)

Presenters:
Mara Michniewicz, Florida Department of Health (Tallahassee, FL)
Marlene McNeese-Ward, Houston Department of Health and Human Services (Houston, TX)
Dave Kern, Washington State Department of Health (Olympia, WA)
David Acosta, Philadelphia Department of Public Health (Philadelphia, PA)

Location: Marshall South, Mezzanine Level
Track: CBA
Level: Intermediate

Adaptation Strategies for Evidence-Based Interventions
Presenters:
Alice Gandelman, MPH, Director, California STD/HIV Prevention Training Center (Oakland, CA)
Workshops

Anne Freeman, Director, Dallas Part II Behavioral Prevention Training Center (PIIBPTC) (Dallas, TX)
Terry Stewart, Director, Denver PIIBPTC (Denver, CO)
Raquel Garcia, Director, Rochester PIIBPTC (Rochester, NY)

Location: Marshall West, Mezzanine
Track: CBO
Level: Introductory

The CDC has disseminated 26 evidence-based interventions through the DEBI project. However, those interventions must often be adapted to meet the needs of local target populations, agency structure and capacities, and community context and culture. This workshop will discuss methods that can be used to adapt evidence-based interventions so that they better meet the needs of communities and persons at risk for HIV infection. Several methods will be reviewed, including focus groups, community identification process and surveys. The session will discuss ways agencies can adapt evidence-based interventions to maintain fidelity to the core elements of the intervention while adapting it for local use.

Effective Fiscal Management of Your CBA Program
Facilitator: Maria Alvarez, Centers for Disease Control and Prevention – CBB (Atlanta, GA)

Presenters:
Arthur Lusby, Centers for Disease Control and Prevention – PGO (Atlanta, GA)
Kim Johnson, National Minority AIDS Council (Washington, DC)
Vanessa Johnson, National Association of People with AIDS (Silver Spring, MD)
Gisele Pemberton, PROCEED, Inc. (Elizabeth, NJ)

Location: Maryland A, Lobby Level
Track: CBA
Level: Advanced

Capacity building providers must strengthen their ability to manage fiscal resources. This session is designed to give CBA providers an opportunity to share information, tools and other resources for effectively managing their federal grant.

Using Data for Priority Setting
Presenters:
Mike Jensen, Los Angeles County HD and Community CPG (Los Angeles, CA)
Kathy Watt, Executive Director, Van Ness Recovery House Programs (Los Angeles, CA)
Patricia Young, RN, BS, HIV/AIDS Prevention Program Coordinator, HIV/AIDS/Hepatitis Program, Iowa Department of Public Health (Des Moines, IA)

Location: Maryland C, Lobby Level
Track: CP
Level: Advanced

Jurisdictions differ in how they utilize different forms of data for setting priorities. Presenters will share varying models of gathering and using different forms of data for priority setting that include epidemiological, needs assessments, provider surveys, and social determinants of health. This session will also explore data needs and gaps for effective priority setting.

Program Evaluation Monitoring System (PEMS)
Presenter: Antonya Rakestraw, MPH, Behavioral Scientist, Prevention Evaluation Research Branch, DHAP, CDC (Atlanta, GA)

Location: Virginia A and B, Lobby Level
Track: CBO
Level: Advanced

The PEMS (Program Evaluation Monitoring System) software session is for agency staff from CBOs funded under PS10-1003 that will be utilizing PEMS for data management within their agency. This session will provide an introduction to the PEMS software and include an overview of how to access PEMS; an overview of navigating through the software; instruction on setting up administrator/users; and a brief overview of the program model concept and data entry into PEMS. Participants will receive guidance on how to register for on-demand training modules and additional tools and resources. In addition, there will be an opportunity for attendees to meet CDC program evaluation staff and the NHM&E Service Center. This session should be attended by staff responsible for data entry and/or data management within the agency.

Working With the Transgender Community
Presenters:
JoAnne Keatley, MSW, MAI Program Manager, PAETC, Director, CoE for Transgender Health, University of California – San Francisco (San Francisco, CA)
Joseph Hollendonner, TransWomen Informing Sister TransWomen on AIDS (TWISTA), The Broadway Youth Center, Howard Brown Health Center (Chicago, IL)

Location: Virginia C, Lobby Level
Track: CBO
Level: Intermediate

HIV prevalence among the transgender community in the U.S. continues to be alarmingly high, with estimates ranging from 27-56%. Currently, there are no evidence-based interventions in...
CDC’s Diffusion of Effective Behavioral Interventions (DEBI) project that are designed specifically for use within the transgender community. This workshop will present an overview of the best practices for adapting DEBIs and include a panel of CBOs who have successfully adapted DEBIs.

Session 2: Monday, December 13 3:15 p.m. – 5:15 p.m.

Using Data to Drive Decision Making

Presenters:
Dr. Dale Stratford, Chief, Program Evaluation Branch (Atlanta, GA)
Nestor Rocha, DC Department of Health (Washington, DC)
Tiffany West, DC Department of Health (Washington, DC)
Elaine Martin, Virginia Department of Health (Richmond, VA)

Location: Delaware A, Lobby Level
Track: HD
Level: Advanced

This workshop will feature information on the National HIV Prevention Program Monitoring and Evaluation data and how to best use these data to drive decision making at the state and local level. This session will also focus on the use of data for planning and quality assurance, best practices for utilizing data extracts for analysis from the Program Evaluation and Monitoring System (PEMS) and other systems, and use of surveillance data to guide program improvement.

HIV Prevention Program Performance Indicators, 2010-2015

Presenters:
Andrew Gans, New Mexico Department of Health (Santa Fe, NM)
Marlene McNeese-Ward, Houston Health Department (Houston, TX)
Dr. Barb Maciak, Behavioral Scientist, Program Evaluation Branch, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Delaware B, Lobby Level
Track: HD
Level: Intermediate

This workshop will provide an opportunity for health department representatives, evaluators and data staff to engage in dialogue regarding CDC’s revised HIV Prevention Program Performance Indicators that will be reported by health departments (and directly-funded community-based organizations) beginning in 2011. Key changes in indicator reporting guidance will be highlighted. Health department staff will have an opportunity for dialogue with their peers on approaches for setting meaningful jurisdiction-level annual performance targets and the local use of indicator data (along with other strategic information sources) for program monitoring, accountability and quality assurance.

Using HIV Surveillance Data in Applying Public Health Principles to the HIV Epidemic

Presenters:
Israel Nieves-Rivera, San Francisco Department of Public Health (San Francisco, CA)
Tiffany West, Washington DC Department of Public Health (Washington, DC)
Moupali Das, MD, MPH, San Francisco Department of Public Health (San Francisco, CA)

Location: Marshall East, Mezzanine Level
Track: HD
Level: Intermediate

This workshop will cover the use of routinely collected HIV surveillance and lab data, and the use of data in innovative ways to evaluate the effectiveness of a comprehensive multi-level public health approach to improving HIV prevention, linkage to and engagement in care and treatment services, and monitoring of health outcomes. The panelists and audience will also discuss the feasibility of calculating community viral load, the use of laboratory data for active disease follow up, and the use of laboratory and surveillance data to monitor and evaluate health outcomes, which include linkage to care, retention, unmet need, and impact of HIV prevention, care and treatment programs.

State-Level Strategies to Build Capacity of Health Departments in Addressing the HIV Epidemic among LGBTQ Youth

Moderator: Gary Jenkins, National Alliance of State & Territorial AIDS Directors (Washington, DC)

Location: Marshall North, Mezzanine Level
Track: HD
Level: Intermediate

NASTAD is providing capacity-building assistance in two demonstration sites having disproportionately high incidence rates of HIV infection among LGBTQ youth. The focus of this effort is to facilitate the development and/or strengthening of a collaborative relationship between state and local health departments, community provider organizations, and state and local education agencies. Participants will be able to discuss the importance of interagency collaboration among departments of health and education and community providers as an effective HIV/STI prevention strategy for LGBTQ youth.
Understanding Monitoring and Evaluation Guidelines for EBIs and Public Health Strategies

**Presenters:**
Romel Lacson, Centers for Disease Control and Prevention – PEB (Atlanta, GA)
Aisha Gilliam, Centers for Disease Control and Prevention – CBB (Atlanta, GA)

**Location:** Marshall South, Mezzanine Level
**Track:** CBA
**Level:** Advanced

Capacity building assistance (CBA) providers must have effective strategies to build the capacity of community-based organizations and health departments to conduct monitoring and evaluation. This session is designed to support CBA providers in the delivery of their services. Discussion topics will include learning more about CDC’s expectations, guidance, and tools for monitoring and evaluation of EBIs and Public Health Strategies.

Prevention with People Living with HIV: New Research and Guidance

**Presenters:**
Peter Kilmarx, Centers for Disease Control and Prevention (Atlanta, GA)
Cindy Lyles, Centers for Disease Control and Prevention (Atlanta, GA)
David Purcell, Centers for Disease Control and Prevention (Atlanta, GA)

**Location:** Maryland A, Lobby Level

People living with HIV infection are a high-priority population for HIV prevention activities. This session will provide an update on new research and guidance on prevention with people living with HIV, including linkage to care, risk screening and risk reduction interventions, use of antiretroviral medication and HIV prevention, and interventions to increase adherence to antiretroviral medication. There will be an opportunity for discussion about implications for HIV prevention programs.

**Presenters:**
Choi Wan, Centers for Disease Control and Prevention, Atlanta, GA
Cheryl Williams, Centers for Disease Control and Prevention, Atlanta, GA

**Location:** Maryland B, Lobby Level
**Track:** HD
**Level:** Intermediate

In this interactive workshop, Pacific Island jurisdictions will learn more from CDC and other health department colleagues about data collection and monitoring, specifically related to CTR, utilization of Epi-Info for data collection and analysis, prioritizing monitoring and evaluation activities, enhancing their surveillance efforts, and the use of surveillance to inform the community planning process.

Strengthening Organizations Serving African-American and Latino MSM

**Presenters:**
Gisele Pemberton, PROCEED, Inc. (Elizabeth, NJ)
Mazdak Mazarei, Asian Pacific Islander American Health Forum (San Francisco, CA)
Arman Lopez, John Snow, Inc. (Boston, MA)
Tamara Combs, National Minority AIDS Council (Washington, DC)
Mark Colomb, My Brothers Keeper (Ridgeland, MS)

**Location:** Maryland C, Lobby Level
**Track:** CBO
**Level:** Introductory

Community-based organizations can be challenged in developing and maintaining strong infrastructures to support sustainable HIV prevention programs. Capacity building assistance (CBA) is available to build stronger, more effective CBOs through leadership development. This interactive workshop is designed to gather input from CBOs who can identify strategies to ensure culturally competent CBA services are responsive to the unique needs of African-American and Latino MSM.
The Role of CBOS in CDC’s Expanded Testing Initiative

*Presenters:*  
Dr. Bela Bashar, The Dimock Center (Roxbury, MA)  
Joanne de Vries, Massachusetts Department of Public Health (Boston, MA)  
Kevin Lawson, Nashville CARES (Nashville, TN)  
Jeanece Seals, Tennessee Department of Health (Nashville, TN)  
Sara Gillen, FROST’D (New York, NY)  
Dr. Benjamin Tsoi, New York City Department of Health (New York, NY)  
Erica Dunbar, Health Department Initiatives, Prevention Program Branch, DHAP, Centers for Disease Control and Prevention (Atlanta, GA)

*Location:* Virginia A and B, Lobby Level  
*Track:* CBO  
*Level:* Intermediate

This workshop will provide CBOS an opportunity to understand the critical role they play in the CDC’s Expanded Testing Initiative. Three CBOS will present their expanded testing program models and describe effective working relationships with their state health departments. CDC’s representative from the PS10-10138 Expanded Testing Initiative program will be available throughout the workshop for technical assistance to CBOS.

Innovative Models for Addressing the Gaps and Needs for Behavioral Interventions

*Presenters:*  
Barry Callis, Massachusetts Department of Health (Boston, MA)  
Kip Castner, Maryland Department of Health (Baltimore, MD)  
Leandro Viana, Santa Fe Mountain Center (Tesque, NM)  
Israel Nieves-Rivera, San Francisco Department of Public Health (San Francisco, CA)  
Dr. Tom Painter, Prevention Research Branch, Operations Research Team, Centers for Disease Control and Prevention (Atlanta, GA)

*Location:* Virginia C, Lobby Level  
*Track:* HD  
*Level:* Intermediate

This session will be a collaborative discussion between CDC staff and health department grantees on addressing the lack and/or paucity of behavioral interventions for various populations. There will also be a focus on highlighting innovative interventions developed by health departments and community-based organizations (“home grown” interventions) to specifically address the needs of these populations. The session will also include a discussion on methods for encouraging and supporting collaborative research between CDC and health department grantees on developing, implementing and evaluating “home grown” behavioral interventions. Jurisdictions will share successful homegrown interventions that have shown some effect.

Session 3:  
Tuesday, December 14  
9:30 a.m. – 11:30 a.m.

Use of Behavioral and Clinical Surveillance for HIV Prevention Programming

*Presenters:*  
Dr. Teresa Finlayson, Centers for Disease Control and Prevention, Behavioral and Clinical Surveillance Branch (Atlanta, GA)  
Tiffany West, DC Department of Health (Washington, DC)  
Cheryl Williams, Centers for Disease Control and Prevention (Atlanta, GA)

*Location:* Delaware A, Lobby Level  
*Track:* HD  
*Level:* Beginner

In this workshop, participants will gain a better understanding of surveillance data and how it can be used for HIV prevention. Each component of a comprehensive HIV surveillance system will be described along with how data from that component may be used for HIV prevention. In addition, key differences between components of HIV surveillance will be highlighted, including differences between the HIV case, behavioral and clinical surveillance components. Changes to HIV testing algorithms will be reviewed as well.

Syringe Services Programs: Lessons from the Field

*Presenters:*  
Daniel Raymond, Harm Reduction Coalition (New York, NY)  
Cyndee Clay, HIPS (Washington DC)  
Maria Alvarez, Team Leader, Capacity Building Branch, Centers for Disease Control and Prevention (Atlanta, GA)  
Dr. Blayne Cutler, New York City Department of Health and Mental Hygiene (New York, NY)

*Location:* Delaware B, Lobby Level  
*Track:* HD  
*Level:* Beginner

This workshop will profile jurisdictions that have successfully implemented syringe service programs. Discussions will focus on linkages to substance abuse treatment, syringe disposals, law enforcement and community relations. In addition, CDC will present their report from the August 30-31, 2010 consultation that solicited input from external experts to assist in the development of programmatic guidance for CDC directly funded health departments on syringe services programs for HIV prevention. Participants will explore the progress toward the guidance development and major areas in which the guidance will address the successes and challenges programs face.
Workshops

Linkage to Care, Retention and Treatment

Presenters:
Lytt Gardner, Centers for Disease Control and Prevention (Atlanta, GA)
Jeffrey Campbell, St. Hope (Houston, TX)

Location: Maryland A, Lobby Level
Track: CBO
Level: Intermediate

In this workshop, CBOs and CDC will share best practices and lessons learned around linkage to care, retention and treatment programs. CBOs and CDC will discuss targeting populations; testing; linkages and referrals; retention efforts; treatment; building partnerships and data collection. The panel will also discuss the challenges and strategies of re-linking clients to care.

Presenters:
Katie Horton, RN, MPH, JD, George Washington University School of Public Health (Washington, DC)
Carole A. Johnson, George Washington University School of Public Health (Washington, DC)

Location: Maryland B, Lobby Level
Track: HD
Level: Advanced

The 2010 Patient Protection and Affordable Care Act includes a wide range of health-related provisions taking effect over the next four years. In this seminar, national health policy experts will provide an overview of the key elements of health reform and the many opportunities and potential threats relevant to people living with HIV/AIDS, community-based organizations, health care providers, and state and local health departments.

Building Capacity to Integrate HIV Prevention, Treatment and Care

Facilitator: Rhondette Jones, Centers for Disease Control and Prevention (Atlanta, GA)

Presenters:
Gina D’Angelo, Connecticut Department of Health (Hartford, CT)
Dan O’Connell, New York State Department of Health (Albany, NY)

Location: Maryland C, Lobby Level
Track: CBA
Level: Advanced

Integration of HIV prevention, treatment, and care programs is a viable model for maximizing limited human and fiscal resources within health department jurisdictions. This interactive skills building session is designed for CBA providers. The workshop will focus on different strategies for developing an integrated HIV prevention, treatment and care plan, as well as related capacity building needs based on lessons learned by health departments.

Tracking and Understanding the Resource Allocations and Expenditures for HIV Prevention

Moderators:
Natalie Cramer, National Alliance of State and Territorial AIDS Directors (Washington, DC)
Anna Ford, UCHAPS (Washington, DC)

Expanded Testing Program: Testing in Emergency Departments

Presenters:
Jeremy Brown, MD, Director of Research, Department of Emergency Medicine, George Washington University (Washington, DC)
Avemaria Smith, Expanded HIV Testing Coordinator, DC DOH/HAHSTA (Washington, DC)
Claudia Gray Chief, Center for HIV Prevention. Maryland Department of Health and Mental Hygiene (Baltimore, MD)
Richard Rothman, MD, Ph.D., Associate Professor, Departments of Emergency Medicine and Medicine Director, EM Research Fellowship, The John Hopkins University (Baltimore, MD)
M. Ann Ricksecker, Pennsylvania / Mid-Atlantic AIDS Education and Training Center (Philadelphia, PA)

This interactive workshop will provide an opportunity for NASTAD representatives, UCHAPS representatives, health department representatives, evaluators, and data staff to engage in dialogue regarding CDC’s plans to track and understand how resources are allocated and expended in support of HIV prevention program implementation. The participants will have an opportunity to discuss ways to collect data that will adequately address the issue, can be reported by health departments without creating additional burdens, and can be used for federal and local HIV program planning and improvement.
Workshops

Location: Marshall North, Mezzanine Level
Track: HD
Level: Intermediate

This workshop will focus on the role of public health agencies in the implementation of HIV testing in emergency departments. Areas of discussion will include the benefits of collaboration between hospitals and health departments, and the challenges and best practices associated with the development and implementation of emergency department-based HIV programs.

Prevention with Positives: Promising Practices in Linking Persons to Care
Facilitator: Phyllis Stoll, CDC-CBB
(Atlanta, GA)

Presenters:
Stacey Little, Academy for Educational Development (Washington, DC)
Israel Rivera-Nieves, San Francisco Department of Health (San Francisco, CA)
Nestor Roca, New Jersey Department of Health (Trenton, NJ)
Steve Saunders, New Jersey Department of Health (Trenton, NJ)

Location: Marshall South, Mezzanine Level
Track: CBA
Level: Intermediate

In light of the increasing numbers of HIV testing campaigns and programs, and the research supporting the importance of early treatment, the need to link persons with known HIV-positive serostatus to care and treatment services has become critical. This workshop will provide an overview of promising practices under development by researchers or being implemented by health departments and community-based organizations. There will be discussion about the programmatic implications for CBA providers.

CPRS in Community Primary Care Settings
Facilitator: David Purcell, Centers for Disease Control and Prevention
(Atlanta, GA)

Presenters:
Tina Megdal, Legacy Community Health Services – Montrose Clinic
(Houston, TX)
Thomas S. Pietrogallo, CARE Resource
(Miami, FL)
Rodney VanDerwarker, Fenway Community Health (Boston, MA)

Location: Marshall West, Mezzanine Level
Track: CBO
Level: Advanced

This workshop will call together experienced community health care providers in a presentation of program models where CPRS is implemented as a companion intervention to HIV/AIDS care and treatment in primary care settings. The discussion will focus on the core elements of CPRS, especially on treatment adherence, and will explore the potential for CPRS as a companion intervention with emerging biomedical interventions for HIV prevention among HIV-positive and HIV-negative individuals.

CBOs, Social Networking/Social Marketing, and HIV Prevention Programs

Presenters:
Gina Larco and Anthony Contreras, Tarzana Treatment Centers (Tarzana, CA)
Booker Daniels, Centers for Disease Control and Prevention (Atlanta, GA)
Brad Cauthen, Bronx AIDS Service (Bronx, NY)

Location: Virginia A, Lobby Level
Track: CBO
Level: Introductory

This workshop will focus on the use of social networking and/or social marketing by experienced CBOs who are serving MSMs of color. The CBOs will describe their prevention program model and discuss the ways in which social networking and social marketing is used to enhance ability to reach target populations.

CPGs Respond to the National HIV/AIDS Strategy

Presenters:
Kathy Watt, Van Ness Recovery House Programs (Los Angeles, CA)
David Acosta, Philadelphia Department of Health (Philadelphia, PA)
Leisha McKinley-Beach, Florida Department of Health (Tallahassee, FL)
Steven Flores, Centers for Disease Control and Prevention (Atlanta, GA)
Heather Hauck, Maryland Department of Health (Baltimore, MD)
Ann Robbins, Texas Department of Health (Austin, TX)

Location: Virginia C, Lobby level
Track: CP
Level: Intermediate

The Obama Administration released the National HIV/AIDS Strategy in July 2010. This workshop will help ensure that the National HIV/AIDS Strategy is a part of community planning. National leaders will take workshop participants through the prevention elements of the strategy and the key deliverables for which state and local planning groups are responsible. Presenters will discuss the role that community planning groups have in the implementation of the National HIV/AIDS Strategy. For example, presenters will showcase how a Los Angeles CPG responded to the National HIV/AIDS Strategy by altering their prevention plan without having to wait until the next prevention plan is developed.
Workshops

Session 4:
Tuesday, December 14
2:15 p.m. – 4:15 p.m.

Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP)
Presenter: Dawn Smith, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Delaware A, Lobby Level
Track: CBO
Level: Intermediate

This workshop will discuss what PrEP and PEP are, and what roles CBOs can play. Part of this discussion will include a discussion about: resources, patient support/education, Myths and Facts, and an update on CDC clinical trials.

Get Involved with the “Act Against AIDS Campaign”

Presenters:
Jill Smith, AAAC Campaign Coordinator, Centers for Disease Control and Prevention (Atlanta, GA)
Jackie Rosenthal, Team Leader for Mass Media, CDC (Atlanta, GA)
Robert Bailey, Team Leader for Partnerships, CDC (Atlanta, GA)
Laura McElroy, Team Leader for Public Health Provider, CDC (Atlanta, GA)
Stephen Massey, Greater Than AIDS (Menlo Park, CA)

Location: Delaware B, Lobby Level
Track: HD
Level: Intermediate

This workshop will provide an overview of the “Act Against AIDS Campaign” (AAAC), which is a five-year social marketing campaign with phases targeted to high risk populations. In the workshop, we will describe the campaign phases, the research behind the campaign, and provide AAAC successes and challenges. Have a dialogue with the health departments and community based organizations on how you can join CDC’s efforts by extending the reach of this HIV prevention campaign by making the tools and materials available to you in your jurisdictions. Learn how and join us as partners in this campaign.

TLC+ Plus in Washington, DC

Presenters:
Nestor Rocha, DC Department of Health – HAHTA (Washington, DC)
Tiffany West, DC Department of Health – HAHTA (Washington, DC)
Angela Fulwood Wood, MSW – Chief Operations Officer, Family & Medical Counseling Service Inc. (Washington, DC)

Location: Marshall East, Mezzanine Level

TLC Plus is an innovative population based study that looks at four core components: expanded HIV testing, linkage to care, viral suppression, and prevention for positives. During this session, participants will receive an overview of HPTN 065 TLC-Plus protocol and the scale up of activities in Washington, DC. We will also discuss TLC-Plus in relation to CDC and HRSA goals in several areas, as well as the scale up of the program as it relates to the goals of the National HIV/AIDS Strategy.

HIV Surveillance and the Changing Testing Algorithm

Presenter: Kristen C. Mahle, Epidemiologist, NCHHSTP, DHPSE, HICSB, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Marshall South, Mezzanine Level
Track: CBO
Level: Advanced

This workshop will discuss testing algorithms for the diagnosis of HIV. The goal of the proposed changes in the testing algorithms is to diagnose HIV infection and link individuals to care earlier. The workshop will provide an overview of the proposed alternative algorithms and discuss the implication of these alternatives for CBOs who are providing CTRS.

Capacity Building for Health Departments

Presenters:
Adora Lee, Academy for Educational Development (Washington, DC)
Miguel Chion, AIDS Project Los Angeles (Los Angeles, CA)
Ricky Wascher Taveras, Arizona-Mexico Border Health Foundation (Tucson, AZ)
Workshops

Albert Hannans, National Minority AIDS Council (Washington, DC)
Alice Gandelman, Public Health Foundation Enterprises Inc. (Oakland, CA)
Bobbi McCaffery, University of Rochester (Rochester, NY)

Location: Marshall West, Mezzanine Level
Track: HD
Level: Beginner

In this session, participants will learn more about the six CBA providers for health departments and how to access technical assistance on interventions, strengthening organizational infrastructure, community planning, and monitoring and evaluation.

Developing and Disseminating Community Mobilization Models
Facilitator: Maestro Evans, Centers for Disease Control and Prevention – CBB (Atlanta, GA)

Presenters:
Adeola Jaiyeola, Aberdeen Area Tribal Chairmen’s Health Board (Rapid City, SD)
Jennifer Freeman, Farmworker Justice (Washington, DC)
Lina Sheth, Asian and Pacific Islander Wellness Center (San Francisco, CA)
JB Beeson, National Youth Advocacy Coalition (Washington, DC)
Daphne Walker-Thoth, Balm in Gilead (Richmond, VA)

Location: Maryland C, Lobby Level
Track: CBA
Level: Intermediate

Community mobilization is an effective mechanism to engage stakeholders to be agents of change for HIV prevention. This forum will provide CBA providers an opportunity to learn key elements of different community mobilization models that have been effective with different racial/ethnic minority and high risk populations, including MSM, transgender individuals and youth. There will be an opportunity to discuss challenges and share resources with peers.

CPGs’ Role in Implementing and Expanding Testing Initiatives
Presenters:
Marlene McNeese-Ward, Bureau of HIV/STD Prevention Houston Department of Health and Human Services (Houston, TX)
Maxine Young, AIDS Foundation Houston (Houston, TX)
Marlene Lalota, Florida Department of Health (Tallahassee, FL)

Location: Virginia A and B, Lobby Level
Track: CP
Level: Beginner

Engaging and involving community members in HIV prevention outside of community planning can often present challenges. This workshop will focus on the role of community member in large scale testing events. Houston’s CPG members will present on lessons learned and the role of community planning and mobilization in implementing Hip Hop for HIV.

Capacity Building Needs Assessments
Presenter: Carl Aronson, Alaska Department of Public Health (Anchorage, AK)

Location: Virginia C, Lobby Level
Track: HD
Level: Intermediate

In this workshop, the Alaska Department of Public Health will share their experiences with designing and conducting capacity building needs assessment with CBOs in their state. Presenters will present their models, and discuss challenges and successes.

Perinatal Prevention
Presenters:
Margaret Lampe, Centers for Disease Control and Prevention DHAP (Atlanta, GA)
Carol Brady (Jacksonville, FL)
Mildred Williamson, Illinois Department of Health (Chicago, IL)
Brenda Thompson, CityMatCH (Omaha, NE)

Location: Delaware A, Lobby Level
Track: HD
Level: Intermediate

The FIMR-HIV Prevention Methodology is a community-based, continuous quality improvement process aimed to improve perinatal HIV prevention systems at the community level. The methodology is based on the National Fetal and Infant Mortality Review (NFIMR) and involves collecting quantitative and qualitative data to provide in-depth information on current system issues that result in cases of perinatal HIV transmission and exposure. This session will discuss five key steps of the methodology and examine the challenges and successes of the FIMR-HIV Prevention Methodology among ten program sites.

Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP)
Presenter:
Dawn Smith, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Marshall East, Mezzanine Level
Track: HD
Level: Intermediate

This workshop will present updates on PrEP and PEP, including an update on
clinical trials and other studies, current issues in providing these clinical prevention services, and discussion of health department issues for PrEP and PEP provision in their jurisdictions.

PCSI: Conversation
Presenters:
Liisa Randall, Michigan Department of Health (Lansing, MI)
Chris Taylor, National Alliance of State & Territorial AIDS Directors (Washington, DC)
David Acosta, Philadelphia Health Department (Philadelphia, PA)
Marcelo Fernandez de la Vina

Location: Marshall North, Mezzanine Level
Track: HD
Level: Intermediate

In this workshop, jurisdictions will have the opportunity to discuss with CDC the categorical funding streams at the state and local levels, opportunity for use of funding to support PCSI, guidelines and trainings, philosophies, and data surveillance systems. Representatives from health departments will discuss these challenges and present strategies for addressing them.

How to Recruit and Retain the "Right" People for Your CBA Program
Presenters:
Pamela Wrenn, South Side Help Center (Chicago, IL)
Miguel Chion, AIDS Project Los Angeles (Los Angeles, CA)
Edna Davis-Brown, American Psychological Association (Washington, DC)

Location: Marshall South, Mezzanine Level
Track: CBA
Level: Intermediate

This session is designed to assist organizations challenged by CBA program staff turnover. Participants will learn about best practices for recruiting culturally competent staff, resources for staff development, and creating strategies for retaining those who are an asset to the CBA program and agency.

Best Practices:
Working with Gay Men of Color
Presenters:
Rashad Burgess, Centers for Disease Control and Prevention (Atlanta, GA)
Mark Colomb, My Brother’s Keeper (Ridgeland, MS)
Cornelius Baker, National Black Gay Men’s Advocacy Coalition (Washington, DC)
Victor Martinez, Bienestar (Los Angeles, CA)
Lance Toma, Asian & Pacific Islander Wellness Center (San Francisco, CA)
Harlan Pruden, NorthEast Two Spirit Society (New York, NY)

Location: Marshall West, Mezzanine Level
Track: CBO
Level: Intermediate

This session will look at best practices when working with Gay Men of Color. Given the disproportionate impact of HIV/AIDS on gay men of color, this community of practice will look at the best way to outreach, communicate, and work with these diverse communities. It is important to remember that these are not monolithic communities. Cultural sensitivity will be an important component to this session.

Capacity Building Assistance to Support HIV Prevention for African American and Latino Gay, Bisexual, and Other Men Who Have Sex with Men
Presenters:
Gisele Pemberton, PROCEED, Inc. (Elizabeth, NJ)
Mark Colomb, My Brother’s Keeper (Ridgeland, MS)
Daniel Casillas, University of Texas Southwestern Medical Center (Dallas, TX)

Location: Maryland A, Lobby Level
Track: CBA
Level: Intermediate

A cadre of CBA providers is funded to serve CBOs and communities specifically targeting African-American and Latino gay, bisexual, and other MSM for HIV prevention. These CBA providers will present their programmatic efforts and lessons learned. The interactive session will also allow for CBA providers to discuss challenges and share best practices, tools, and other resources.

Linkage to Care, Retention and Treatment
Presenters:
Lytt Gardner, Centers for Disease Control and Prevention (Atlanta, GA)
Jeffrey Campbell, St. Hope Foundation (Houston, TX)

Location: Maryland C, Lobby Level
Track: CBO
Level: Intermediate

In this workshop, CBOs and CDC will share best practices and lessons learned around linkage to care, retention and
treatment programs. CBOs and CDC will discuss targeting populations, testing, linkages and referrals, retention efforts, treatment, building partnerships, and data collection. The panel will also discuss the challenges and strategies of re-linking clients to care.

**HIV Prevention Program Performance Indicators for CBOs**

*Presenters:*
- Barbara Maciak, Ph.D., Program Evaluation Branch (PEB), DHAP, Centers for Disease Control and Prevention (Atlanta, GA)
- Elin Begley, MPH, PEB, DHAP – CDC (Atlanta, GA)
- Mesfin Mulatu, Ph.D., PEB, DHAP – CDC, Atlanta, GA
- Maria Ayala-Perales, MPH, Prevention Program Branch (PPB), DHAP – CDC (Atlanta, GA)
- Renata Ellington, MSEd, CBO Initiatives, PPB, DHAP – CDC (Atlanta, GA)

*Location: Virginia A and B, Lobby Level*

Track: CBO
Level: Introductory

This workshop will provide staff from CDC directly-funded, community-based organizations (CBOs) with an introduction to the HIV Prevention Program Performance Indicators that funded agencies are required to report to CDC beginning in 2011. We will review the indicators, their general characteristics, and how indicators (and other sources of information) can be used for local program monitoring and improvement. Emphasis will be placed on PS 10-1003 indicator requirements including annual performance targets, data sources for indicators, and how and when indicator data are reported to CDC. Staff who may benefit from this workshop include agency directors, program managers, and monitoring and evaluation staff.

**The Keys to a Successful Community Planning Process**

*Facilitator:*
Ed Tepporn, Asian and Pacific Health Islander Forum (San Francisco, CA)

*Presenters:*
- Cyndee Clay, HIPS (Washington, DC)
- Justin Hahn, Washington State Dept of Health Office of HIV Prevention and Education Services (Seattle, WA)
- Jeff Benavides, Harris County Hospital District - Thomas Street Health Center (Houston, TX)
- Jayson Hunt, Maine Department of Health (Augusta, ME)

*Location: Virginia C, Lobby Level*

Track: CP
Level: Intermediate

Presenters will discuss key critical elements of a successful community planning process. Topics will include the importance of roles and responsibilities for CPG member and health departments, recruitment and retention strategies, and ensuring parity, inclusion and representation (PIR). This session will also include a discussion on CPG skills building, mentorship and leadership development.

**Planning for Implementation of the National Strategy at the State and Local Levels**

*Moderator:*
Julie Scofield, National Alliance of State & Territorial AIDS Directors, Washington, DC

*Presenters:*
- Ann Robbins, Texas Department of Public Health (Austin, TX)
- Marlene McNeese-Ward, Houston Department of Health (Houston, TX)
- Christopher Brown, Chicago Department of Public Health (Chicago, IL)
- Kevin Cranston, Massachusetts Department of Public Health (Boston, MA)
- David Purcell, Centers for Disease Control and Prevention (Atlanta, GA)
- Stephen Flores, Centers for Disease Control and Prevention (Atlanta, GA)

*Location: Marshall West, Mezzanine Level*

Track: HD
Level: Advanced

This workshop will provide information about a new CDC initiative to support the development and implementation of “Enhanced Comprehensive HIV Prevention Plans” (ECHPPS) in 12 jurisdictions. Three jurisdictions awarded funds under this initiative...
will discuss their initial plans for moving forward with activities under this initiative. The initiative is likely to serve as a model for implementation of the National HIV/AIDS Strategy at the state and local levels. Workshop discussion will include the pros and cons of this model and needed modifications and additions to facilitate proactive engagement of other HHS agencies and grantees. Using this as a model for statewide comprehensive HIV planning will also be discussed.

**How to Design Effective eLearning Training Tutorials for HIV Prevention**

**Presenters:**
Colin Bill, Academy for Educational Development (Washington, DC)
Adora Iris Lee, Academy for Educational Development (Washington, DC)
Rebecca Jackson-Stoeckle, Education Development Center (Newton, MA)

**Location:** Maryland A, Lobby Level
**Track:** CBA
**Level:** Intermediate

This interactive workshop is designed for CBA providers that are responsible for using new technology to design eLearning modules and tutorials for CPG members, CBO and health department staff. Participants will learn the key considerations to be raised when determining the best online vehicle to use to conduct training.

**Working With Black Women and Latinas**

**Presenters:**
Donna Hubbard-McCree, Centers for Disease Control and Prevention (Atlanta, GA)
Miriam Phields, Centers for Disease Control and Prevention (Atlanta, GA)
Pernessa Seale, The Baln in Gilead (Richmond, VA)
Michelle Batchelor, National Alliance of State & Territorial AIDS Directors (Washington, DC)
Leslie Perez, PROCEED (Elizabeth, NJ)

**Location:** Maryland C, Lobby Level
**Track:** CBO
**Level:** Intermediate

This session will look at best practices when working with Black women and Latinas. Given the disproportionate impact of HIV/AIDS on African-American women and Latinas, this community of practice will look at the best way to do outreach, communicate, and work with these diverse communities. It is important to remember that these are not monolithic communities. Cultural sensitivity will be an important component to this session.

**Evaluating HIV Prevention Community Planning Models among CPGs**

**Presenters:**
Terrance Gardet, Director, Community HIV Prevention Planning Group – NYC Department of Health and Mental Hygiene (New York, NY)
Cena N.F. Bain, MS, Community Planning Group Liaison – Indiana State Department of Health (Indianapolis, IN)
Ashlee Foslom, Kansas City Free Clinic (Kansas City, MO)

**Location:** Virginia A and B, Lobby Level
**Track:** CP
**Level:** Intermediate

Evaluating the community planning process is critical to the successful implementation of a comprehensive HIV prevention plan. This workshop will discuss evaluation priority setting, developing an evaluation plan framework, data collection, and roles and responsibilities utilizing the model used with several state CPGs. Workshop participants will learn best practices and participate in state-specific, small group discussions to complete the priority setting document based on community planning objectives and attributes/indicators. Participants will also receive an overview on the importance of and how to complete and implement the Evaluation Framework and Data Collection tools.

Roundtables

Session 1: Monday, December 13 1:00 p.m. – 3:00 p.m.

CPG Perspectives on Testing, Linkage to Care, Plus Treatment (TLC+)
Presenters:
Blayne Cutler, Director of HIV Prevention Bureau of HIV Prevention and Control, NYC Department of Health and Mental Hygiene (New York, NY)
Ken DeJesus, Iris House (New York, NY)
Jennifer Carmona, Assistant Director, Virology Quality Improvement Bellevue Hospital Center (New York, NY)

Location: Room 8216, Lobby Level
Track: CP
Level: Intermediate

Using a community planning model of open discussion between community and government representatives from UCHAPS jurisdictions, UCHAPS held a TLC+ think tank on the public health strategy. In this session, presenters will give an overview of this think tank and the concept of TLC+. UCHAPS jurisdictions in New York City and Washington, DC will also give an update on NIH’s HPTN-065 research study on TLC+. Participants will learn how to effectively communicate the concept to their CPG members and how to move forward with this public health strategy as a CPG.

Confronting the Crisis: Women of Color and HIV/AIDS
Presenter:
Michelle Batchelor, Senior Manager, National Alliance of State & Territorial AIDS Directors (Washington, DC)

Location: Room 8219, Lobby Level
Track: HD
Level: Intermediate

This roundtable will include a robust discussion of the impact of HIV/AIDS and viral hepatitis on women of color, and the health department response. Health departments will have the opportunity to share, in great detail, program development and implementation of targeted programs for women of color, given limited financial and personnel resources. Participants will identify technical assistance needs based on health department capacity and prioritization of women highly impacted by HIV/AIDS.

PS10-1002: HIV Prevention Projects for the Pacific Islands and U.S. Territories: Capacity Building for HIV Prevention Programs
Presenters:
Ed Tepporn, Asian and Pacific Islander American Health Forum (San Francisco, CA)
Lyne Greabell, National Alliance of State & Territorial AIDS Directors (Washington, DC)
Carl Aronson, Alaska Department of Public Health (Anchorage, AK)

Location: Room 8222, Lobby Level
Track: HD
Level: Intermediate

This roundtable will feature three CBOs who are working with culturally diverse populations at risk for HIV infection in three differing rural regions of the United States. The roundtable discussion will focus on EBI and public health strategy selection and prevention program implementation when serving rural populations.

CBA for Monitoring and Evaluation Network
Facilitators:
Miriam Phields, Centers for Disease Control and Prevention – CBB (Atlanta, GA)
Miriam Vega, Latino Commission on AIDS (New York, NY)

Location: Room 8226, Lobby Level
Track: CBA
Level: Intermediate

These six sessions address the programmatic requirement of an annual face-to-face meeting of the CBA provider networks to discuss programmatic coordination, collaboration, and best practices; and share and/or develop materials and tools.
Session 2:  
Monday, December 13  
3:15 p.m. – 5:15 p.m.

Prevention Efforts and Strategies for Capturing Data in the Transgender Population  

Presenters:  
David Acosta, City of Philadelphia (Philadelphia, PA)  
Teresa Finlayson, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Room 8216, Lobby Level  
Track: HD  
Level: Intermediate

This roundtable will be an opportunity for health departments to discuss their prevention efforts targeting transgender populations and strategies developed by jurisdictions to capture data for this population.

CBA for Evidence-based Behavioral Interventions and Public Health Strategies Network  

Facilitators:  
Nelson Colon-Cartagena, Centers for Disease Control and Prevention – CBB (Atlanta, GA)  
Ricky Wascher-Tavares, Arizona Mexico Border Health Foundation (Tucson, AZ)

Location: Room 8224, Lobby Level  
Track: CBA  
Level: Intermediate

These six sessions address the programmatic requirement of an annual face-to-face meeting of the CBA provider networks to discuss programmatic coordination, collaboration, and best practices; and share and/or develop materials and tools.

CBA for Health Departments  

Facilitators:  
Nelson Colon-Cartagena, Centers for Disease Control and Prevention – PEB (Atlanta, GA)  
Pat Coury-Doniger, CHBT/Rochester PTC (Rochester, NY)

Location: Room 8216, Lobby Level  
Track: CBA  
Level: Intermediate

These six sessions address the programmatic requirement of an annual face-to-face meeting of the CBA provider networks to discuss programmatic coordination, collaboration, and best practices; and share and/or develop materials and tools.

CBA for Community-Based Organizations Network  

Facilitators:  
Patricia Patrick, Centers for Disease Control and Prevention – CBB (Atlanta, GA)  
Alaysia Phillips, National Minority AIDS Council (Washington, DC)

Location: Room 8224, Lobby Level  
Track: CBA  
Level: Intermediate

These six sessions address the programmatic requirement of an annual face-to-face meeting of the CBA provider networks to discuss programmatic coordination, collaboration, and best practices; and share and/or develop materials and tools.

Session 3:  
Tuesday, December 14  
9:30 a.m. – 11:30 a.m.

HIV Prevention Programs for Pre-released and Recently Released Inmates  

Presenters:  
Eyal Bergman, Identity Inc., Montgomery County Correctional Facility (Gaithersburg, MD)  
A. Nike Luken, AIDS Foundation (Houston, TX)  
Carmen Julius, Prevention through Action, Care and Empowerment (Columbia, SC)  
Carol F. Burton, Centerforce Inc. (San Rafael, CA)

Location: Room 8219, Lobby Level  
Track: CBO  
Level: Introductory

This roundtable will feature four experienced CBOs that provide HIV prevention services to incarcerated individuals. The roundtable discussion will be an opportunity to talk with CBOs who are implementing Project START and Street Smart with pre-release and recently released male and female inmates.

CBA for Organizational Infrastructure and Program Sustainability (OIPS) Network  

Facilitators:  
Kimberly Hearn Murray, Centers for Disease Control and Prevention – CBB (Atlanta, GA)  
Ed Tepporn, Asian and Pacific Islander American Health Forum (San Francisco, CA)

Location: Room 8216, Lobby Level  
Track: CBA  
Level: Intermediate
These six sessions address the programmatic requirement of an annual face-to-face meeting of the CBA provider networks to discuss programmatic coordination, collaboration, and best practices; and share and/or develop materials and tools.

**HIV Prevention Needs for African-born Refugee Populations**  
*Presenter:* Gary Novotny, Minnesota Department of Health (St. Paul, MN)  
*Location:* Room 8224, Lobby Level  
*Track:* HD  
*Level:* Intermediate  

This interactive roundtable will provide an opportunity for health departments that have seen an influx of refugee populations that have been resettled in their jurisdictions to discuss the unique HIV prevention needs, share tools and identify technical assistance needs.

**CBA for Communities Network**  
*Facilitators:*  
- Maestro Evans, Centers for Disease Control and Prevention – CBB (Atlanta, GA)  
- Raniyah Abdus-Samad, Black AIDS Institute (Los Angeles, CA)  

*Location:* Room 8216, Lobby Level  
*Track:* CBA  
*Level:* Intermediate  

Community planning group members face the difficult challenge of choosing prevention interventions for their plan that best meet their local needs. This roundtable will give participants the opportunity to discuss new DEBIs and other public health interventions, including biomedical and structural interventions. Roundtable facilitators will focus the discussion on best practices on choosing DEBIs and home-grown interventions the challenges of local implementation of DEBIs and the Concurrence Process. Examples will be given on how intervention subcommittees use a matrix or other means to choose from an array of interventions for their plans and how interventions are updated and vetted by the community planning group.

**The Challenges in Prioritizing Transgender Populations**  
*Presenters:*  
- Isela Gonzalez, Jail Health Services, Forensic AIDS Project (San Francisco, CA)  
- A.J. King, Program Coordinator/Senior Trainer, California STD/HIV Prevention Training Center (Los Angeles, CA)  
- Cyndee Clay, HIPS (Washington, DC)  

*Location:* Room 8224, Lobby Level  
*Track:* CP  
*Level:* Advanced  

Community planning group members face unique challenges in serving transgender populations and CPGs often have difficulties prioritizing this at-risk group due to a lack of data. Some jurisdictions have been able to prioritize transgenders and conduct needs assessments even amidst gaps in data, a lack of targeted interventions, and other challenges, through the collaboration of community and government. Presenters will share their jurisdiction’s experiences and expertise, and facilitate a discussion on successes and challenges in prioritizing transgenders.

**Choosing Interventions for the Prevention Plan**  
*Presenters:*  
- Charles Martin, Executive Director, South Beach AIDS Project (Miami Beach, FL)  
- Charles Collins, CBB, DHAP, Centers for Disease Control and Prevention (Atlanta, GA)  

*Location:* Room 8216, Lobby Level  
*Track:* CP  
*Level:* Intermediate  

Community planning group members face the difficult challenge of choosing prevention interventions for their plan that best meet their local needs. This roundtable will give participants the opportunity to discuss new DEBIs and other public health interventions, including biomedical and structural interventions. Roundtable facilitators will focus the discussion on best practices on choosing DEBIs and home-grown interventions the challenges of local implementation of DEBIs and the Concurrence Process. Examples will be given on how intervention subcommittees use a matrix or other means to choose from an array of interventions for their plans and how interventions are updated and vetted by the community planning group.
Thank you

for being a partner in the effort to find an HIV vaccine.

bethegeneration.nih.gov
Session 2:
Monday, December 13
3:15 p.m. – 5:15 p.m.
 Dialogue for CBOs Implementing “Focus on Youth + ImPACT” Programs
Facilitator: Aisha Gilliam, Ed.D., Capacity Building Branch, DHAP, Centers for Disease Control and Prevention (Atlanta, GA)

Presenters:
Jennifer Glick, Youth Eradicating AIDS and HIV in New Orleans – Institute of Women and Ethnic Studies (New Orleans, LA)
Kevin Anderson, AIDS Foundation Houston (Houston, TX)
Denice Cora-Bramble, Children Teen Life Clubs – Children’s National Medical Center (Washington, DC)

Location: Room 8219, Lobby Level
Track: CBO
Level: Intermediate

This roundtable will feature three CBOs with experience providing FOY+ImPACT. The CBOs will present successes and challenges working with youth and parents in HIV prevention, and identify best practices for CBOs who are considering program development for high risk youth and their parents or guardians. CDC’s Technical Monitor for FOY+ImPACT will be available for technical assistance throughout the discussion.

Dialogue for CBOs Implementing Popular Opinion Leader, Mpowerment, 3MV, and Healthy Relationships for Men who have Sex with Men

Facilitator: Joseph Lindsey, My Brother’s Keeper (Ridgeland, MS)

Presenters:
Terry Smith, AIDS Project (Los Angeles, CA)
Neena Smith Bankhead, Evolution Project – AID Atlanta (Atlanta, GA)
Hank Tomlinson, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Room 8220, Lobby Level
Track: CBO
Level: Intermediate

CBOs will have the opportunity to discuss their successes and challenges serving MSMs of color followed by a best practice discussion for replicating the Popular Opinion Leader (POL), Mpowerment, 3MV, and Healthy Relationships programs.

NASTAD’s Statement of Urgency among Gay and Bisexual Men
Presenter:
Terrance Moore, National Alliance of State & Territorial AIDS Directors (Washington, DC)

Location: Room 8226, Lobby Level
Track: HD
Level: Advanced

During the 2010 Annual Meeting, NASTAD members unanimously voted to issue a statement of urgency declaring HIV/AIDS, sexually transmitted diseases, and viral hepatitis – a crisis among gay and bi-sexual men of all races and ethnicities in the U.S. NASTAD established a workgroup to examine current efforts and consider approaches to sharpen health department responses to prevent new infections among gay men once and for all. This roundtable will provide the opportunity for jurisdictions to discuss the impact of the statement and possible next steps.

Session 3:
Tuesday, December 14
9:30 a.m. – 11:30 a.m.
 Dialogue for CBOs Implementing CTRS/RESPECT among Asian, Pacific Islanders and U.S. Territories
Facilitator: Mazdak Mazarei, Asian Pacific Island Health Forum (San Francisco, CA)

Presenters:
Kunane Dreier, Life Foundation (Honolulu, HI)
Peter Cruz, “ACT NOW” – Special Service for Groups/Asian Pacific AIDS Intervention Team (Los Angeles, CA)
Yumiko Fukuda, Asian Pacific Coalition on HIV/AIDS, Inc. (New York, NY)
Olivia Marr, Centers for Disease Control and Prevention (Atlanta, GA)

Location: Room 8222, Lobby Level
Track: CBO
Level: Intermediate

This roundtable will feature three CBOs who are using Popular Opinion Leader (POL) with CTR/RESPECT among high risk Asian and Pacific Islander populations. The discussion will focus on the selection of this particular combination as a culturally-appropriate HIV prevention intervention within A&PI communities.

Session 4:
Tuesday, December 14
2:15 p.m. – 4:15 p.m.
 The Value of Peer-Based TA for Community Planning
Presenters:
Israel Nieves-Rivera, San Francisco Department of Public Health (San Francisco, CA)
Anna Ford, UCHAPS (Washington, DC)
UCHAPS and NASTAD are two national organizations that play a critical role in serving state and local planning groups. This workshop will introduce participants to these organizations, focusing on the value of peer-based TA from a national level and what they can offer. Presenters will discuss how community planning groups have evolved across the country, how national organizations use the expertise of state and local planning groups, and CBA resources and services available to support CPGs.

**CPG Prioritization**

*Presenters:*  
Peter McLoyd, Ruth M. Rothstein  
CORE Center (Chicago, IL)  
Claudia Gray, RN, Maryland Department of Health and Mental Hygiene (Baltimore, MD)

*Location: Room 8222, Lobby Level*

*Track: CP*

*Level: Intermediate*

Many community planning groups struggle with prioritization of target populations – a key function of community planning groups. This session will go over the process and timeline for CPG prioritization, and discuss different strategies and technical assistance for priority setting using different data sources and trends in local epidemics. This community of practice will allow for Peer TA and discussion of prioritizing populations based on risk, race, and ethnicity, while taking into account the targeted populations within the National HIV/AIDS Strategy.

**Dialogue for CBOs Implementing Safety Counts for Active Substance Users**

*Presenters:*  
Jonny F. Andia, Ph.D., Behavioral Scientist, Capacity Building Branch, DHAP, CDC (Atlanta, GA)  
Robert Cordero, Citywide Harm Reduction Program (Bronx, NY)  
Vanessa Smith, South Side Help Center (Chicago, IL)  
Carmen Lopez, Puerto Rican Organization for Community Education and Economic Development, Inc. (Elizabeth, NJ)

*Location: Room 8219, Lobby Level*

*Track: CBO*

*Level: Intermediate*

This session will feature four CBOs who are working in HIV prevention and substance abuse. The roundtable discussion will address the selection of Safety Counts for replication as an intervention for active substance users in urban centers. The four CBOs serve culturally diverse populations with differing risk factors. Successes and challenges encountered when providing services to substance users will be identified. CDC’s Technical Monitor for Safety Counts will be available for technical assistance throughout the roundtable discussion.

**Dialogue for CBOs Implementing SiHLE, Willow, Community PROMISE and Sista**

*Facilitator: Vanessa Johnson, JD, Executive Vice President of the National Association of People with AIDS (Silver Spring, MD)*

*Presenters:*  
Ingrid Floyd, Iris House – A Center for Women Living with HIV (New York, NY)  
Patricia L. Nalls, The Women’s Collective (Washington, DC)  
Catherine Wyatt-Morley, Women on Maintaining Education and Nutrition (Nashville, TN)  
Gloria Howard, Aletheia House (Birmingham, AL)  
Akil Pierre, Philadelphia Health Management Corporation (Philadelphia, PA)  
Miriam Phields, Centers for Disease Control and Prevention (Atlanta, GA)

*Location: Room 8222, Lobby Level*

*Track: CBO*

*Level: Intermediate*

The roundtable will feature five experienced CBOs that provide HIV prevention services to women and girls who are at high risk for infection and/or are HIV-positive. The roundtable discussion will be an opportunity to talk with CBOs who are implementing SiHLE, Willow, Community PROMISE and Sista. The roundtable will be facilitated by Vanessa Johnson from the National Association of Persons with HIV/AIDS, who is experienced nationally with HIV/AIDS programming for African-American women and girls.
Communities of Practice

Session 6:
Wednesday, December 15
11:00 a.m. – 1:00 p.m.

Dialogue for CBOs Implementing DEBIs for Transgender Communities
Facilitator: JoAnne Keatley, MSW, MAI Program Manager, PAETC, Director, CoE for Transgender Health, University of California San Francisco (San Francisco, CA)

Location: Room 8222, Lobby Level
Track: CBO
Level: Advanced

This session will feature three CBOs who are currently providing DEBI interventions for the Transgender community. The discussion will focus on the selection of DEBIs, challenges, successes and best practices. This will be a continued dialogue from the Best Practices workshop.

Innovative Testing Approaches

Presenters:
Tiffany West, DC Department of Health (Washington, DC)
Claudia Gray, Maryland Department of Health (Baltimore, MD)
Dr. Blayne Cutler, NYC Department of Health (New York, NY)
Raynard Jabouin, Jr., Harlem United Community AIDS Center (New York, NY)
Sara Gillen, Harlem United (New York, NY)

Location: Room 8226, Lobby Level
Track: HD
Level: Intermediate

In this session, jurisdictions will share their successful testing strategies that enable them to maximize reach and effort. This session will include discussion on testing technologies and routine vs. targeted testing. New York City will highlight the KIS (Knowing Is Sexy) Project – a social network-based recruitment strategy used to identify undiagnosed HIV-positive black and Latino young men who have sex with men (YMSM).
Center for Community-based HIV Prevention

SERVICES OFFERED INCLUDE:

Community Needs Assessments
Community Readiness Assessments
HIV Testing Event Kits Dissemination
Technical Assistance
National Black HIV/AIDS Awareness Day Leadership
Capacity Building Assistance

Coalition Development
Behavioral Intervention Recruitment/Retention
HIV Stigma
HIV Testing Promotion

Uso de datos para la definición de prioridades

Presentadores:
Mike Jensen, miembro del Departamento de Salud del Condado de Los Ángeles y grupos de planificación comunitaria
Kathy Watt, Directora Ejecutiva, Van Ness Recovery House Programs (programas de recuperación Van Ness) (Los Ángeles, CA)
Patricia Young, RN, BS, Coordinadora del Programa de Prevención de HIV/SIDA, Programa de Hepatitis/HIV/SIDA, Departamento de Salud Pública de Iowa (Des Moines, IA)

Lugar: Maryland C, Vestíbulo
Identificación: CP
Nivel: Avanzado

Las jurisdicciones difieren en cuanto al uso de diferentes formas de datos para establecer prioridades. Los presentadores compartirán diferentes modelos para reunir y utilizar diversas formas de datos con el objeto de definir prioridades: epidemiológica, evaluaciones de necesidades, encuestas de proveedores y determinantes sociales de la salud. Esta sesión también abordará las necesidades y los vacíos de información para una efectiva definición de prioridades.

Fortalecimiento de organizaciones que trabajan para homosexuales latinos y afroamericanos

Presentadores:
Gisele Pemberton, PROCEED, Inc. (Elizabeth, NJ)
Mazdak Mazarei, Asian Pacific Islander American Health Forum (Foro de Salud Asiático e Isleño del Pacífico Estadounidense) (San Francisco, CA)
Arman Lopez, John Snow, Inc. (Boston, MA)
Tamara Combs, National Minority AIDS Council (Consejo Minoritario Nacional de SIDA), (Washington, DC)
Mark Colomb, My Brothers Keeper (Ridgeland, MS)

Lugar: Maryland C, Vestíbulo
Identificación: CBO
Nivel: Introductorio

Para las organizaciones comunitarias es un desafío desarrollar y mantener infraestructuras sólidas para sostener programas de prevención de HIV sustentables. La asistencia para crear capacidad (Capacity Building Assistance o CBA) está disponible para crear organizaciones comunitarias más sólidas y efectivas a través del desarrollo del liderazgo. Este taller interactivo está diseñado para reunir información de los centros comunitarios que puedan identificar estrategias para garantizar que los servicios CBA culturalmente competentes puedan dar respuesta a las necesidades únicas de los homosexuales latinos y afroamericanos identificados y/o sus organizaciones.

Cómo incrementar la capacidad para integrar la prevención, el tratamiento y la atención médica del HIV

Facilitador: Rhondette Jones, Centers for Disease Control and Prevention (Centros para la Prevención y el Control de Enfermedades) (Atlanta, GA)

Presentadores:
Gina D’Angelo, Departamento de Salud de Connecticut, Hartford, CT
Peter Whiticar, Departamento de Salud de Hawái, Honolulu, HI
Dan O’Connell, Departamento de Salud del Estado de Nueva York, Albany, NY

Lugar: Maryland C, Vestíbulo
Identificación: CBA
Nivel: Avanzado

La integración de programas de prevención, tratamiento y atención del HIV es un modelo viable para maximizar recursos humanos y fiscales limitados dentro de las jurisdicciones de los departamentos de salud. Esta sesión interactiva para desarrollar habilidades está diseñada para proveedores de CBA. El taller se centrará en diferentes estrategias para desarrollar un plan integrado de prevención, tratamiento y atención del HIV, y necesidades de desarrollo de capacidades relacionadas en base a las experiencias de los departamentos de salud.
Sesiones Con Interpretación Simultánea

SESIÓN 4:
MARTES 14 DE DICIEMBRE
2:15PM A 4:15PM

Reforma del servicio de salud y HIV/SIDA: Modificaciones a los sistemas de salud y disposiciones sobre la salud pública

Presentadores:
Katie Horton, RN, MPH, JD, George Washington University School of Public Health, (Washington, DC)
Carole A. Johnson, George Washington University School of Public Health (Washington DC)

Lugar: Maryland C, Vestíbulo
Identificación: HD
Nivel: Avanzado

La Ley de Protección al Paciente y Cuidado de Salud Asequible (Patient Protection and Affordable Care Act) de 2010 incluye una amplia variedad de disposiciones relacionadas con la salud que entrarán en vigencia en los próximos cuatro años. En este seminario, los expertos en políticas de salud nacionales darán una perspectiva general de los elementos clave de la reforma al sistema de salud y la gran cantidad de oportunidades y amenazas potenciales para las personas que conviven con el HIV/SIDA, organizaciones comunitarias, proveedores servicios de salud y departamentos de salud estaduales y locales. Los temas que se tratarán incluyen cobertura actual, modificaciones en la cobertura y cómo se establecerán y harán cumplir las normas relativas al cuidado de la salud. También habrá una discusión sobre disposiciones de salud pública que incluyen el Fondo de Salud Pública y Prevención (Prevention and Public Health Fund), la Estrategia de Prevención Nacional (National Prevention Strategy), Subsidios para Transformaciones Comunitarias (Community Transformation Grants), expansión de la fuerza de trabajo y tecnología de la información relativa a la salud.

SESIÓN 5:
MIÉRCOLES 15 DE DICIEMBRE
8:45AM A 10:45AM

Conexión con la atención médica, la retención y el tratamiento

Presentadores:
Lytt Gardner, Centers for Disease Control and Prevention (Centros para la Prevención y el Control de Enfermedades) (Atlanta, GA)
Jeffrey Campbell, St. Hope (Houston, TX)

Lugar: Maryland C, Vestíbulo
Identificación: CBO
Nivel: Intermedio

En este taller, las organizaciones comunitarias y los centros para la prevención y el control de enfermedades compartirán las mejores prácticas y experiencias relativas a la conexión con programas de tratamiento, retención y atención. Las organizaciones comunitarias y los centros para la prevención y el control de enfermedades discutirán cómo llegar a las poblaciones; pruebas; conexiones y referencias; esfuerzos de retención; tratamiento; asociaciones y recopilación de datos. El panel también discutirá los desafíos y las estrategias de volver a conectar a los clientes con el cuidado de la salud.

SESIÓN 6:
MIÉRCOLES 16 DE DICIEMBRE
11:00AM A 1:00PM

Trabajar con mujeres negras y latinas

Presentadores:
Donna Hubbard-McCree, Centers for Disease Control and Prevention (Centros para la Prevención y el Control de Enfermedades) (Atlanta, GA)
Miriam Phields, Centers for Disease Control and Prevention (Centros para la Prevención y el Control de Enfermedades) (Atlanta, GA)
Pernessa Seale, The Balm in Gilead (Richmond, VA)
Michelle Batchelor, NASTAD (Washington, DC)
Teresa Soto-Vega, PROCEED (Elizabeth, NJ)

Lugar: Maryland C, Vestíbulo
Identificación: CBO
Nivel: Intermedio

Esta sesión abordará las mejores prácticas al trabajar con mujeres negras y latinas. Dado el desproporcionado impacto del HIV/SIDA en las mujeres afroamericanas y latinas, esta comunidad de práctica trabajará sobre la mejor manera de alcanzar, comunicar y trabajar con estas diversas comunidades. Es importante recordar que se trata de comunidades no monolíticas. La sensibilidad cultural será un componente importante de esta sesión.
Thank you to our national partners for keeping the light burning.
