Health Department Co-Chair

Community Co-Chair
Appointed Seats: In order to improve coordination of services there will be two appointed seats on the BCHPPC: Broward County School District and Research.

The membership must achieve Parity, Inclusion and Representation, reflecting the priority populations: African-American, MSM, and Latino.
RECOMMENDED MODEL

Role: The main responsibility is “housekeeping,” or doing the planning required to run the Full Council (i.e. setting agendas, creating the bylaws, etc.)

Who: The Executive Committee is comprised of the community co-chair, the governmental co-chair, representative from the following advisory groups: MSM, Transgender, Latinos en Accion, and Black Advisory Group.

How long: Meets as appropriate to manage the administrative “oversight” of the council.
High-Impact/Core Prevention Team will prioritize the interventions with the greatest potential to prevent the most new HIV infections, directed to the populations most affected and ensure four core prevention components identified in PS12-1201 are implemented. This approach will help us achieve the ambitious HIV prevention goals of the National HIV/AIDS Strategy.
The team will review biomedical, behavioral, and operational research to develop new HIV prevention strategies and improve existing programs. This team will also assist the council with the interpretation of the epidemiological data for prevention planning.
Support efforts to align structures, policies, and regulations in the jurisdiction with optimal HIV prevention, care, and treatment and to create an enabling environment for HIV prevention efforts.
