Florida Integrated Prevention and Care Plan Objectives, 2017–2021

**NHAS Goal #1**

**REDUCE NEW INFECTIONS**

**Objective 1.1:** By December 31, 2021, increase the proportion of HIV-infected persons who know their serostatus from 87.2% (2015) to at least 90%.

**Objective 1.2:** By December 31, 2021, reduce the annual number of newly diagnosed HIV infections in Florida from 4,613 (2014) to 4,004.

**Objective 1.3:** By December 31, 2021, reduce the annual number of HIV-infected babies born in Florida from 6 (2014) to less than 4.

**NHAS Goal #2**

**INCREASE ACCESS TO CARE AND IMPROVE HEALTH OUTCOMES FOR PEOPLE LIVING WITH HIV**

**Objective 2.1:** By December 31, 2021, reduce the number of HIV-related resident deaths from 876 (2014) to 762.

**Objective 2.2:** By December 31, 2021, increase the proportion of PLWHAs linked to care (ever in care) from 90% (2014) to 96%.

**Objective 2.3:** By December 31, 2021, increase the proportion of PLWHAs retained in care from 64% (2014) to 90%.

**Objective 2.4:** By December 31, 2021, increase the proportion of PLWHAs with a suppressed viral load (<200 copies/mL) from 58% (2014) to 80%.

**Objective 2.5:** By December 31, 2021, increase the proportion of ADAP clients with a suppressed viral load (<200 copies/mL) from 89% (2014) to 94%.

**NHAS Goal #3**

**REDUCE HIV RELATED HEALTH DISPARITIES AND INEQUITIES**

**Objective 3.1:** By December 31, 2021, reduce the annual number of newly diagnosed HIV infections in Florida’s black population from 2,024 (2014) to 1,757.

**Objective 3.2:** By December 31, 2021, reduce the annual number of newly diagnosed HIV infections in Florida’s men who have sex with men (MSM) population from 2,761 (2014) to 2,397.

**Objective 3.3:** By December 31, 2021, reduce the rate of new HIV infections in Miami-Dade and Broward counties from 45.8 (2014) to 39.7 and 38.6 (2014) to 33.5, respectively so these counties will no longer be in the top three U.S. MSA/divisions with the highest rate of new HIV infections diagnosed.

**Objective 3.4:** By December 31, 2021, reduce the annual number of newly diagnosed HIV infections in Florida’s Hispanic/Latino population from 1,281 (2014) to 1,112.
