Patient Access Network (PAN) Foundation Expands to Cover Pre- or Post-Exposure Prophylaxis Treatment (PrEP or PEP)

PAN Foundation, a non-profit organization that provides assistance to under-insured patients for their out-of-pocket expenses, has announced it has expanded the eligibility criteria for HIV treatment and prevention to include those needing PrEP or PEP. PAN Foundation has assisted over 5,200 people through its HIV Treatment and Prevention fund since its launch less than one year ago - in March 2014. The decision to include PrEP and PEP treatment is a significant step in broadening access to therapies that lower the rate of infection among at-risk populations, sexual assault victims or people who are occupationally exposed to HIV/AIDS.

Eligibility Criteria
1. Patient is **insured** and insurance must cover the medication for which patient seeks assistance.
2. Patient is HIV-positive, or HIV-uninfected and at high risk of acquiring HIV, or HIV-uninfected and have been exposed to bodily fluids potentially containing HIV within the last 72 hours.
3. Patient resides and receives treatment in the United States.
4. Patient income is below 500% of the Federal Poverty Level. Click HERE for Federal Poverty Guidelines

The Patient Access Network (PAN) Foundation is an independent, nationwide 501(c)(3) organization dedicated to providing help and hope to underinsured patients who are unable to afford the out-of-pocket expenses for their prescribed specialty medications. Since 2004, PAN has provided close to 380,000 underinsured patients with over $880 million dollars in much needed financial assistance to cover out-of-pocket medical expenses across nearly 60 disease-specific programs. To learn more, visit http://PANfoundation.org. To apply for a grant, please call 866.316.PANF (7263) or fill out an application online.
