

CDC's Division of HIV and AIDS Prevention is hosting a Community Engagement Webinar for Capacity Building with Clinicians

The purpose of this webinar is to better understand the capacity building needs of HIV clinical providers in delivering HIV prevention and care services. We invite HIV clinicians from clinical settings to discuss 1) your strategies in implementing HIV prevention and care services to help your patients and community, 2) your areas of need and preferences for building capacity in your setting, and 3) how CDC's Capacity Building Branch can best support you.

For more information about CDC's CBA program, please visit <http://www.cdc.gov/hiv/capacitybuilding>.

TUESDAY, JANUARY 8, 2013

2:00 pm – 3:30 pm EST
